9B. Finance, Infrastructure, and Core Development Committee

Mr. Chatelain, Chair of the Finance, Infrastructure, and Core Development Committee, reported the Committee received one (1) presentation.

9B1. Presentation from LSU A&M on Deferred Maintenance, Campus Master Plan, & Proposed Funding Approach

Executive Vice President Daniel Layzell and LSU Associate Vice President for Facilities and Property Oversight Tony Lombardo provided a presentation on the current state of LSU’s deferred maintenance and the campus master plan. The presentation proposed potential funding approaches, including a student fee. Mr. Layzell informed the Board they will provide the supplemental information requested during the presentation.

Ms. Duplessis emphasized looking at creative sources of funding as student fees puts a burden on the middle class families who are not eligible for Pell Grant and other sources of financial aid. She suggested consideration for creating an LSU district to capture the businesses that are benefitting for being close to LSU and are profiting. The revenue streams from an LSU district by the businesses and entities would then create a more equitable approach to addressing this financial situation. The sales tax being generated within 5 to 10 miles around the University is a tremendous amount of revenue we could have just from a half cent tax of funding from the district. She further emphasized this is a necessary expense and we need the resources to take care of this but let’s explore every other opportunity to do this and think out of the box.

Mr. Williams expressed concerns about the approach of what amounts to taxing the student to accomplish this goal. The statistics presented comparing ourselves to peer institutions does not reflect institutions in states where the average household income is comparable to Louisiana. Majority of our scholarships do not cover fees and what about the working class who work hard for scholarships, only to arrive on campus to a large amount of fees they have to pay. Other state institutions with comparable facility fees have a total fee less than LSU. This would add $200 to over $2000 of fees for families and students. While it would lead to much improvement and development, a breakdown of what is a significant health and safety concern verses what is needed for the future would be helpful. This discussion is needed and we need time to discuss this and be more creative and explore a tax district around LSU or find potential for cost savings on campus. We must consider the working class family and the thousands of dollars of fees not covered by their scholarships. While it is true we do not have the same tuition autonomy as other states, we do owe it to the families to approach this conversation.

Mr. Chatelain asked for a motion to adjourn the Committee meeting.

Upon motion of Mr. Moore, seconded by Mr. McCrery, the Committee meeting was adjourned.
