

## New Users' Meeting

Thursday May 4, 2017

12:45 pm – 4:50 pm

LSU Union – Capital Chamber Room

Whether you are a current or a prospective user, this meeting will provide you information about how LSU's synchrotron may provide a competitive advantage for your research program. If your research is science, engineering, coastal, environmental, biological or vet med, CAMD can provide unique measurements to support your research. The complete agenda is at <http://www.lsu.edu/camd/2017meetingschedule.php>

This year's meeting includes 12 faculty presenting their work using synchrotron radiation followed by lively discussion of plans for endstation improvements and new beamlines. Radiation safety training will conclude the meeting.
