LSU SCHOLARSHIPS AVAILABLE TO ENTERING FRESHMEN

Most awards listed below are valid for one year of undergraduate study. Each may be renewed annually as long as the recipient meets academic requirements. The maximum term of the award is four years or until the recipient receives an undergraduate degree, whichever occurs first.

Louisiana residents selected for the scholarships listed below will likely qualify for tuition assistance and cash stipends through the state's TOPS program. See the section titled "Louisiana's Tuition Opportunity Program for Students, TOPS."

Chancellor's Alumni Scholarships

These scholarships are funded through the LSU Alumni Association and through endowments made to the University by Gordon A. Cain and Fred H. Fenn. Candidates must have either an American College Test (ACT) composite score of at least 33 or a Scholastic Aptitude Test (SAT) score of at least 1450, as well as an overall high school average of "A" in English, mathematics, social studies, and natural sciences. The students selected receive either:

• A cash award of $12,000 ($3,000 per year) over a four year period

or

• A cash award of $4,000 ($1,000 per year) over a four year period and an on-campus room and board scholarship. The room and board scholarship covers the cost of a two-student, air conditioned room and the Resident Tiger meal plan.

Recipients also have the opportunity to earn an additional $6,200 ($1,550 per year) through participation in the Chancellor's Future Leaders in Research program. Through this program students are assigned to work with individual faculty members engaged in research projects. Nonresident students also receive a tuition exemption scholarship for nonresidents.

LSU Alumni Association Scholarships

Excellent standardized test scores and an excellent high school record are required for these scholarships. Each of the 100 recipients will receive:

• A cash scholarship from the LSU Alumni Association of $4,000 ($1,000 per year) over a four-year period.

• An opportunity to earn an additional $6,200 ($1,550 per year) through participation in the Chancellor's Scholars Engaged in Undergraduate Research program. Through this program students are assigned to work with individual faculty members engaged in research projects. Nonresident students also receive a tuition exemption scholarship for nonresidents.

NOTE: Students qualifying as both a National Merit/Achievement Finalist and an LSU Alumni Scholar will have the option of choosing either:

• The cash award of $4,000 ($1,000 per year) that accompanies the LSU Alumni Scholarship

or

• An on-campus room and board scholarship that covers the cost of a two-student, air conditioned room and the Resident Tiger meal plan.

Students in this category also receive the cash award that accompanies the LSU Merit/Achievement Scholarship (see above).

LSU Centennial Award

Approximately 150 awards at $2,000 ($500 per year) are available to Louisiana residents with excellent standardized test scores and high school record. National Merit/Achievement Semifinalists are also eligible for consideration. Additionally, recipients will receive an offer to become a Chancellor's Student Aide, working in a campus job suited to their abilities and interests.
Tuition Exemption Scholarships for Nonresidents

To be eligible for consideration for these scholarships, an entering freshman must have an excellent high school academic record, particularly in English and mathematics, and must have very high standardized test scores. Students who are officially designated as National Merit or National Achievement semifinalists, as well as students in special categories, are also eligible for consideration.

These awards are in the form of a tuition and nonresident fee exemption. Recipients may also receive an offer to become a Chancellor’s Student Aide, working in a campus job suited to their abilities and interests.

Nonresident Fee Exemption Program

Nonresident students with commendable academic records, as well as students in special categories, will be considered for these scholarships. These awards will be in the form of an exemption from the nonresident fee.

Chancellor's Leadership Scholarships

Approximately 100 awards valued at $1,000 ($500 per semester) for one year only are available. To be considered for this award, applicants must demonstrate excellent leadership skills, possess commendable high school academic records and strong standardized test scores (ACT or SAT), and must be recommended by their high school principal. Applications may be obtained through the high school in early February or by writing to Chancellor’s Leadership Scholarship, 208 Coates Hall, LSU, Baton Rouge, Louisiana 70803.

Chancellor’s Student Aide Program

This program provides an opportunity for students to work in one of many departments on campus and earn $1,550 per year. These awards are made on the basis of standardized test scores and high school academic record. Approximately 550 new awards are available each year.

LSU Honor Awards for ROTC Scholars

High school students who qualify for Air Force, Army, or Navy ROTC scholarships, as well as students who are selected as “alternates” or “advanced designees,” receive a room and dining plan exemption (on-campus charges with certain limitations), providing all ROTC and academic requirements are maintained.

Valedictorian Awards

Students graduating as valedictorian of their Louisiana high school receive a one-time cash award of $300 in the fall semester of the freshman year. To receive this award, the high school principal should submit a letter to the Office of Student Aid & Scholarships certifying the student’s status.

Application Procedure

The LSU “Application for Undergraduate Admission and Scholarship,” must be submitted, along with an official high school transcript, standardized test scores, and all other required information, to the Office of Undergraduate Admissions, 110 Thomas Boyd Hall, LSU, Baton Rouge, Louisiana 70803, as soon as possible following the junior year of high school. The deadline for full consideration for LSU’s scholarship programs is November 15.

Students should take the ACT or SAT no later than the October testing date of the senior year in high school and indicate LSU as one of their college choices. Students who become National Merit or National Achievement finalists should indicate LSU as their first choice school to ensure receiving priority consideration for certain scholarships.

All students who meet admission criteria will be evaluated further to identify qualified candidates for scholarship consideration. Notification of scholarship recipients normally begins in December and continues until early April.

Some scholarship programs may require additional application materials.

TOPS—Louisiana’s Tuition Opportunity Program for Students

Louisiana residents meeting certain eligibility requirements will qualify for tuition assistance and, in some cases, cash stipends through this state-funded program. TOPS has three components: (1) the Opportunity Award provides tuition assistance for four years; (2) the Performance Award provides tuition assistance and a $400 per year cash stipend for four years; and (3) the Honors Award provides tuition assistance and a cash stipend of $800 per year for four years. Each of these components has certain ACT score and GPA requirements; in addition, all TOPS awards require 16-5 units of specified high school course work.

To apply for TOPS awards, the Free Application for Federal Student Aid (FAFSA), which corresponds to the year in which the student plans to enroll, must be submitted by the deadline published in the FAFSA.

More detailed information on these programs may be obtained from the Louisiana Office of Student Financial Assistance, Scholarship Division, P. O. Box 91202, Baton Rouge, Louisiana 70821-9202 or by visiting their website at www.osfa.state.la.us.

OTHER LSU SCHOLARSHIPS AND AWARDS

There are two types of scholarships listed below—those restricted to students according to their major or college and those that are open to all students regardless of their major or college. Both types, however, may be restricted to students of specified classification, place of residence, or other characteristic consistent with the principles of equal opportunity and/or affirmative action. Most scholarships are restricted to full-time students. Applications for scholarships administered by the Faculty Senate Committee on Student Aid and Scholarships may be obtained from the Office of Student Aid & Scholarships, 208 Coates Hall. All other applications, when required, may be obtained from the department or college listed in the description of the scholarship.

The description of each scholarship follows the same format: title; number given and annual amount of each; e.g. “(2:$300)” means that two scholarships are awarded per year at $300 each; any criteria or restrictions; and the group that determines which students will receive the scholarship. The following abbreviations are used in the scholarship descriptions:

FR . . . . . . . freshman
SO . . . . . . . sophomore
JR . . . . . . . junior
SR . . . . . . . senior
UG . . . . . . . undergraduate
GR . . . . . . . graduate student
LA . . . . . . . Louisiana
yr . . . . . . . year
gpa . . . . . . grade-point average
EBR . . . . . East Baton Rouge Parish

Scholarships and Awards Restricted to a Particular Field of Study

Students interested in applying for the following scholarships and awards should check with the individual colleges for up-to-date information concerning amounts and requirements. Those scholarships and awards marked with one asterisk (*) are funded through the LSU Foundation. Those marked with two asterisks (**) are sponsored by the LSU Alumni Association.

LSU STUDY ABROAD SCHOLARSHIP PROGRAM

Undergraduate students planning to participate in an approved LSU Study Abroad Program are eligible for consideration for awards ranging from $1,000 to $3,000 each. To be considered, students must have at least a 3.0 cumulative grade-point average, must have earned a minimum of 30 hours at LSU, and must be concurrently enrolled at LSU during the study abroad period. Applications for these awards are made through the Academic Programs Abroad website at www.lsu.edu/studyabroad.

ROTC SCHOLARSHIPS

Air Force ROTC Scholarships

The Air Force ROTC College Scholarships Program offers assistance to outstanding men and women who enroll in the Air Force ROTC program. Most scholarships provide for payment of tuition (resident and nonresident), textbook expenses, laboratory and associated fees for required classes, and also include a tax-free monthly allowance during the school year. Freshmen and sophomores will receive $250 per month; juniors will receive $300 per month; and seniors will receive $350 per month. Male and female high school students are eligible for the four-year scholarship program if they complete an application prior to December 1 of their senior year.

For applications and procedures, interested students should apply to LSU and Air Force ROTC early during their senior year. Additional information may be obtained by contacting the Professor of Military Science. In addition to the scholarships provided by the university, ROTC students may choose to participate in the Air Force ROTC program. Most scholarships are obtained from the National Scholarship Program and are awarded following each semester's performance. The National Competition Navy ROTC scholarship program is based on their demonstrated academic performance and aptitude for service as commissioned officers in the U.S. Navy or Marine Corps.

Navy ROTC Scholarships

The National Competition Navy ROTC Scholarship Program is designed to provide four, three, or two years of financial assistance to outstanding young men and women working toward the bachelor's degree. NROTC scholarships provide for the university fee, nonresident fee, books, laboratory, and $100 per month subsistence allowance. Interested students should apply to the NROTC Navy-Marine Corps Scholarship Program, P.O. Box 5909, Washington, DC 20014 before December 1 or contact the Navy recruiter at the NROTC Unit, Southern University, Baton Rouge; telephone 225/771-4370 or 774-3521 (collect).

LSU students who join the Naval ROTC Program at Southern University become eligible to compete for NROTC scholarships while actively participating in the program. These scholarships are awarded following each semester's performance. The Professor of Naval Science nominates students enrolled in the NROTC college program based on their demonstrated academic performance and aptitude for service as commissioned officers in the U.S. Navy or Marine Corps.

Graduate Scholarships and Awards

Additional information may be obtained by contacting the Professor of Naval Science, NROTC Unit, Southern University, Baton Rouge, 70803, or calling 225/771-4370 or 225/774-3521 (collect). Additional financial aid is available for students who join the Marine Corps option prior to beginning their junior year.

GRADUATE SCHOLARSHIPS AND AWARDS

For additional information on scholarships and awards for students in the Graduate School or professional schools, see the publications issued by those divisions.

SCHOOL OF LIBRARY AND INFORMATION SCIENCE

*Mary Margarette Hancey Memorial Fellowship (1:$1,800) GR major in LIS; academic ability; awarded by SLIS.

*Jimmy H. Hoover Scholarship (1:$400) GR major in LIS; academic ability; awarded by SLIS.
In order to receive financial aid, a student must be making “satisfactory academic progress.” For the purpose of participating in any of the federal student aid programs, the LSU Faculty Senate Committee on Student Aid and Scholarships has established the following policy for determining satisfactory academic progress for undergraduate students:

- **Students with less than 60 earned hours must not be on scholastic probation.**
- **Student with 60 or more earned hours must have 2.0 cumulative gpa.**
- **When registered full-time (12 or more hours), students are expected to earn at least an average of nine hours of credit each semester.**
- **When registered part-time, students are expected to earn a proportionate number of hours (usually 75 percent) each semester.**
- **Students may only receive financial aid for a maximum of 192 attempted credit hours.**

If these established criteria are not met, students may seek to appeal if mitigating circumstances affected their academic performance. Students are notified when they are not considered to be making satisfactory academic progress and if they qualify for the appeal process.

**Graduate Students**

Graduate and professional school students who meet the requirements for admission and retention in a specific degree program under the scholastic regulations of that school are considered to be in “good academic standing.”

Graduate Students shall be expected to earn at least an average of six hours of credit for each semester when registered as full-time or a proportionate number of hours of credit (usually 75 percent) when registered part-time. This will apply for each academic year in which the student is enrolled, as well as for his or her cumulative graduate academic record.

Professional school students pursuing a professional degree program in either law or veterinary medicine shall be expected to earn at least an average of 12 hours of credit for each semester when registered full-time or a proportionate number of hours of credit (usually 75 percent of hours carried) when registered part-time. This will apply for each academic year in which the student is enrolled, as well as for his or her cumulative academic record in a professional school.

**Resignations/Unofficial Withdrawals**

Students who receive financial aid funds and then resign or unofficially withdraw (cease attendance) during the first 60 percent of the enrollment period will be required to repay all or part of the aid they received. The amount of aid that must be returned is based on the period of time the student remained enrolled. For example, if a student was enrolled for 30 percent of the semester (calendar days), the...
student is only entitled to 30 percent of the total aid received. The remaining 70 percent of federal aid must be returned to the appropriate programs in the following order: Unsubsidized Federal Stafford Loans, Federal Perkins Loans, Federal PLUS Loans, Federal Pell Grants, Federal SEOG, and LEAP. The amount of aid to be returned will be calculated at the time of resignation. For unofficial withdrawals, the amount will be calculated at the end of the enrollment period. Until this obligation is settled, requests for academic transcripts will not be processed and any further financial aid may be in jeopardy.

**Refunds**

Students who receive financial aid funds and then officially resign from the University may be entitled to a partial refund of certain University fees, depending on the resignation date. Specific information regarding the refund schedule is available from the Office of the University Registrar.

**Campus Employment**

Those students who want to work on campus, but do not qualify on the basis of financial need, may seek regular student employment by contacting various departments on campus. Only full-time students who are not on academic probation are eligible to hold campus jobs. Graduating seniors who are part-time in their final semester may have permission to work in a campus job. The Job Location and Development Program located in B12 Coates Hall provides assistance with locating part-time jobs on- and off-campus. Graduate students should inquire about the availability of assistantships in their departmental offices.

**Short-Term LSU Loans**

Full-time students may apply for short-term Hiram Student Loans for $300-$500. Students must not be on scholastic probation to receive these loans. Loans are made starting on the first day of classes; the process continues until October 1 for fall, March 1 for spring, and July 1 for summer. Students are permitted a maximum of 60 days to repay the loan in full. A 2 percent service charge is assessed on the amount borrowed. This 2 percent service charge is equivalent to an annual interest rate of 12 percent. Hiram Student Loans are to be repaid at the Office of Bursar Operations, 125 Thomas Boyd Hall, on or before the maturity date shown on the promissory note signed by the student at the time the loan was negotiated. Students who fail to repay Hiram Student Loans by the maturity date may jeopardize their chances of receiving future loans.

Accounts that must be turned over to LSU's attorneys for collection are assessed an additional collection fee. All international students who are interested in Hiram Loans should contact the International Student Office prior to receiving loans or working in jobs on campus.

**Services for Students with Disabilities**

The Office of Student Aid & Scholarships is a TDD (Telecommunications Device for the Deaf) location. Hearing impaired students may call 225/578-3675 to communicate with a financial aid officer. Students with physical disabilities who must confer with a financial aid officer should contact the office for an appointment in advance so that appropriate accommodations can be made.

**Veterans' Benefits**

The Office of the University Registrar, 112 Thomas Boyd Hall, provides counseling and information for veterans attending LSU. Enrollment certifications to the Veterans' Administration are handled through this office, and all veterans and eligible dependents of deceased or disabled veterans are urged to establish contact with the Office of Veterans' Affairs when they arrive on campus. New students who wish to receive advance pay should notify this office at least 30 days prior to registration.
