

General Education Requirements

The University's General Education requirement represents a conviction on the part of the faculty that all students need to reason logically, communicate effectively, and relate to the world around them. While courses completed in a field of study develop specific knowledge and skills in a chosen profession, general education courses not only enhance awareness of the world and the people in it, but also foster an appreciation of the arts and humanities and provide a basic understanding of mathematical and scientific principles.

General education courses are not hurdles to be overcome; rather, they are the means by which students learn to think, describe, interpret, and analyze the world. Their primary aim is to educate, rather than train, and to instill a desire for life-long learning. Specifically, these courses are designed to produce students who have developed:

- an effective command of written and spoken English;
- an informed appreciation of the roles of the arts and the humanities;
- a familiarity with the nature and function of the social sciences;
- an appreciation of the methods of critical inquiry;
- an ability to deal with moral and ethical issues;
- a rational basis for selecting a vocation;
- an understanding of other cultures and other times; and
- a comprehension of how knowledge is acquired and applied.

To fulfill these requirements, students must complete 38-39 hours of course work in six major areas:

-
- English composition (six hours)
 - Analytical reasoning (six hours)
 - Arts (three hours)
 - Humanities (nine hours)
 - Natural sciences (eight-nine hours)
 - Social sciences (six hours)
-

REGULATIONS

- Students must complete the 38/39-hour general education requirement *prior to graduating from LSU*. It is recommended that students complete the requirement during their first four semesters at the University.
- Only those courses on the approved list below, *and their honors equivalents*, may be used to satisfy the general education requirement.
- No more than six hours of credit taken through *correspondence study* may be applied to a student's general education requirement.
- An entering student may receive *three or six hours of credit in English composition* on the basis of ACT scores and/or performance on approved placement tests.
- An entering student may receive credit for *one or more of the required mathematics courses* on the basis of placement test scores.
- *Advanced placement and advanced standing* credit may be used to satisfy the general education requirement.
- General education courses *will be graded on the "A," "B," "C," "D," "F" system*. No courses taken on a pass/fail basis will count toward the general education requirement.
- In addition, each student must demonstrate *computer literacy* in ways deemed appropriate by the faculty of the senior college in which the student is enrolled.
- *Appeals for an exception to the general education requirements*. An appeal should be made and a decision rendered *prior to* registering for a course intended to be a substitute for one on the approved listing, with the exception of transfer courses. Scheduling difficulties or allegations of poor advising typically do not constitute a reasonable basis for an appeal. A *request for an exception to the general education requirement* must be submitted to the dean of the student's college. The student's request and the dean's evaluation of that request must be submitted to the Office of Academic Affairs. A final decision will be made after consideration by the Faculty Senate Committee on General Education.

TRANSFER COURSE APPROVAL

Deans are to determine the applicability of transfer courses to a component of LSU's general education requirements.

If the course is deemed to be applicable, and there is no equivalent LSU course, deans are asked to enter a course substitution on the Student Records and Registration database, indicating that the course is accepted for general education credit. Documentation concerning this decision should be kept on file in the college.

If it is determined that a course is equivalent to an LSU course, colleges should notify the Office of Undergraduate Admissions so the Admissions Transfer Table can be updated.

If the college does not approve a transfer course for general education credit, the student may petition the Office of Academic Affairs for a decision.

REGENTS' STATEWIDE ARTICULATION

LSU participates in the Board of Regents' Statewide Articulation Consortium. Students who plan to transfer to another Louisiana public institution should consult the Office of Undergraduate Admissions for information about the course transfer agreement.

GENERAL EDUCATION COURSES

In the list of courses in the "Courses of Instruction" section of this catalog, general education courses are designated by a star (★) placed before the course number.
