Partnership Professor; Assistant Dean

ROBERT W. HINES, III
Assistant Dean

3304 CEBA Building
225/578-3211
FAX 225/578-5256

The E. J. Ourso College of Business Administration offers specialized professional training in several areas of business in addition to a program of general business administration. The curricula of the various departments are shown in the following chart.

Each curriculum is constructed to ensure that students receive a broad general education and a sound foundation in the basic areas of business knowledge. At the same time, students may obtain limited specialization in a particular area of business. The objective of the college is to provide training in the functional fields of business administration so students will be qualified to hold positions of leadership, trust, and responsibility in business and industry.

The E. J. Ourso College of Business Administration is a member of the American Assembly of Collegiate Schools of Business (AACSB). Its undergraduate programs have been accredited continuously by the AACSB since 1931.

MISSION OF THE COLLEGE

The statement of mission and objectives below was developed by the E. J. Ourso College of Business Administration's strategic planning committee and was approved by the faculty of the college in the spring of 1993.

The mission of the E. J. Ourso College of Business Administration at Louisiana State University is to be the provider of premier business, management, and economic education in the state and a leader in the southeastern United States. This mission stems from LSU's position as the state's flagship University. The college is responsible for achieving excellence in the development, dissemination, and application of knowledge about the functioning of public, private, and nonprofit organizations in a global environment.

The teaching mission of the college is to produce outstanding graduates by offering comprehensive, state-of-the-art bachelor's, master's, doctoral, and continuing professional education programs in business, economics, and management of public and nonprofit organizations. The college seeks to provide its students with unique opportunities for personal and professional growth based on ethical awareness and an ability to think innovatively.

The college is equally committed to its research mission: to conduct and disseminate significant basic and applied research studies in entrepreneurship, organizations, public policy, and the economy. Such research contributes to and transcends the teaching mission of the college by advancing the frontiers of knowledge.

The college has a service mission to the University, outside constituencies, and the community of scholars. It seeks to fulfill this mission by contributing to the University's effective functioning, by interacting with business and government to foster the state's and nation's economic development, by serving in professional associations, and by developing and managing rigorous academic journals.

ADMISSION REQUIREMENTS

Students in good standing may apply for admission to the E. J. Ourso College of Business Administration after successful completion of 30 semester hours of college work, including the pre-business core (Accounting 2001, Economics 2000 or 2010, ISDS 1100, and Mathematics 1431) and English 1002. Applicants must have earned at least a "C" grade in English 1002. Admission is competitive. Those who have completed the aforementioned course work with at least a 3.00 overall gpa will automatically be admitted to the college upon receipt of their application. Applicants who have completed this course work with less than a 3.00 gpa will be admitted on a space-available basis, beginning with those students with the highest gpa and proceeding in descending order until the available spaces are filled. Students who are denied admission may reapply for admission in a subsequent semester.

College Probation

Students in the E. J. Ourso College of Business Administration who have cumulative business gpa drops below a 2.00 will be placed on college probation. Students who do not bring their business gpa back to a 2.00 by the conclusion of the next semester will be declared ineligible to continue in the college. Students declared ineligible to continue in the college will be required to reapply in order to resume their business degree program. Readmission to the college is not guaranteed.

Readmission

Students who were not registered at LSU for the preceding regular semester must file a formal application for readmission. Readmission to the E. J. Ourso College of Business Administration is not automatic.

DEGREE REQUIREMENTS OF THE COLLEGE

The degree of Bachelor of Science will be conferred on students who complete one of the approved curricula with a 2.00 or better grade-point average on all work taken and a 2.00 or better grade-point average on all business administration courses. The requirements above apply both to the total course work taken and to LSU course work separately.

The last 30 semester hours presented for the degree must be taken in residence in the E. J. Ourso College of Business Administration on the LSU campus.

The AACSB Standards for Accreditation state that "the school should require that at least 50 percent of the business credit hours required for the business degree be earned at the degree-awarding institution."

The AACSB Standards also state that "each undergraduate curriculum should have a general education component that normally comprises at least 50 percent of the student's four-year program."

The student must complete 119-123 semester hours in accordance with the following regulations.

**Academic Work: 123-119 Semester Hours**

All 3000/4000 level business courses, except Accounting 3021, are restricted to students who have completed 60 hours of college-level course work.

**General Education Requirements**

- **English Composition and Speech (12 hrs.)**—English 1000/1001 and 1002, 1003, or 1005 with a grade of “C” or better; English 2002 with a grade of “C” or better; Communication studies 1061 or 1062; and Communication studies 2010, 2061, 2064, 4101, 4113, or 4114.
- **Mathematics and Computer Science (9-13 hrs.)**—Mathematics 1021 and 1431; Mathematics 1550 may be substituted for 1431.

Students should refer to their chosen curriculum to determine the specific mathematics requirements. No student may receive more than nine semester hours of credit in mathematics courses numbered below 1550.

- **Natural Sciences (8-9 hrs.)**—See those courses listed as general education natural sciences courses.

  - **Arts (3 hrs.)**—See those courses listed as general education arts courses.
  - **Humanities (9 hrs.)**—See those courses listed as general education humanities courses.
  - **Social Sciences (6 hrs.)**—ECON 2000 and 2010.

**ELECTIVES**

Students may choose any degree credit courses offered by the University consistent with their specific degree requirements. However, no more than six hours may be selected from ROTC, kinesiology activity courses, band, chorus, or music skills courses. Up to six semester hours in ROTC may be used as electives in all business curricula.

**PASS-FAIL OPTION**

The pass-fail grading option is limited by the college to courses that are electives in a student’s specific degree program.

**CORRESPONDENCE AND EXTENSION CREDIT**

Students must have the permission of the dean of the college prior to scheduling correspondence or extension course work.

Students who are taking classroom courses at the University cannot take courses through correspondence study. Students not enrolled in classroom courses during a given semester can be approved for courses by correspondence through the dean of the E. J. Ourso College of Business Administration (3304 CEBA) and may enroll at the Division of Continuing Education (E106 Pleasant Hall; 578-3171). Enrolment in correspondence courses must be completed by the final date for adding courses for any semester, including summer term.

The deadline for completion of all correspondence course work is the last day of final examinations for the semester during which the student is enrolled. As a maximum of three lessons per week can be submitted in a course, the time required to submit all of the lessons in a three-credit correspondence course is at least six weeks. Students who have not completed all of the requirements by the deadline will have their enrollment automatically terminated.

Correspondence study is restricted to elective courses. No more than 12 semester hours of correspondence and extension credit may be applied toward the degree requirements of the college. A student must complete all correspondence study before registering to receive a degree and no degree may be awarded during a semester in which a student is enrolled in correspondence study.
DIRECTED STUDY COURSES

If an independent study course is taken within the college, a written description of the project to be undertaken in the course must be submitted to the department chair and dean for approval, prior to registration in the course.

STUDENT RESPONSIBILITY

Students in this college bear final responsibility for selection of their academic programs and adherence to all published regulations and requirements of the college and the University. Each student must see a counselor for a final degree checkout during the semester prior to the semester in which the degree is to be awarded.

GRADUATION REQUIREMENTS

Students who complete degree requirements during intersession should plan to graduate in August and must inform the dean's office of this intention. Such students should see a counselor and register in the summer for "degree only."

Students who have completed courses at another college or university must have an official transcript covering this work on file in the Office of the University Registrar before registering for the degree.

BETA GAMMA SIGMA

Membership in Beta Gamma Sigma is one of the highest forms of recognition at the national level that a student can receive in an undergraduate or master's program in business or management. To be eligible for membership, a student must rank in the upper 7 percent of the junior class, upper 10 percent of the graduating senior class, or upper 20 percent of the graduating master's class. Members are elected to membership and publicly recognized during the fall and/or spring term.

Beta Gamma Sigma has three purposes: to encourage and reward scholarship, to promote advancement of education in business, and to foster integrity in the conduct of business operations.

PHI KAPPA PHI

Phi Kappa Phi, a national scholastic honor society founded in 1897, now contains nearly 300 chapters nationwide. It is one of the most prestigious scholastic honor societies in the U.S. The LSU chapter was founded in 1930 as the 43rd chapter in the nation. At the present time, the national office is located on this campus in the French House.

The mission of Phi Kappa Phi is to recognize and promote academic excellence in all fields of higher education and to engage the community of scholars in service to others. Phi Kappa Phi is unique because it recognizes superior scholarship in all academic fields, rather than restricting membership to a limited field. Juniors in the top 5 percent and seniors and graduate students in the top ten percent of their classes may be invited to become members of Phi Kappa Phi. New LSU Phi Kappa Phi members are initiated and honored in the spring semester each year and wear identifying ribbons on their academic gowns at commencement exercises.

REQUIREMENTS FOR A SECOND BACHELOR'S DEGREE

To receive a second bachelor's degree from this college, students must:
- reapply for and gain admission to the college;
- complete two semesters in residence in the college;
- meet all stated requirements for a B.S. degree in the college;
- earn 30 additional hours of course work at the 3000 level or above, except when
  - the second degree program requires a 2000 level or below course, or
  - the course is in a language other than the student's native language.

NONMATRICULATED STATUS

To be admitted to the college on a nonmatriculated basis, students must have earned a bachelor's degree and must meet the same admission requirements stated for students seeking the bachelor's degree. Credit earned after being admitted to the college may be applied toward a second bachelor's degree in accordance with the requirements for the second degree.

COOPERATIVE EDUCATION PROGRAM

Please see "Career Services Center" in the section of this catalog titled, "Student Life & Academic Services."

GRADUATE PROGRAMS

Master's and doctoral degrees are offered through the Graduate School by the various departments within the college. In addition, the following specialized master's degrees are offered. For information about these degrees consult the Graduate Bulletin.

James C. & Cherie H. Flores Master of Business Administration Program

The combination of a general or a technical undergraduate education with a graduate-level Master of Business Administration degree is a widely recognized avenue to opportunity and success in the business world. To this end, the college offers an M.B.A. program for students who aspire to management careers in business and industry. The program is open to those who hold degrees in arts and sciences or specialized fields such as engineering, geology, chemistry, physics, or agriculture, as well as to students with undergraduate degrees in business administration.

Master of Public Administration

The Departments of Accounting, Economics, Management, Political Science, and Information Systems & Decision Sciences & the Hebert Law Center cooperate in this interdepartmental program.

PLACEMENT SERVICE

The University maintains a professionally staffed placement service located on the first floor of the CEBA Building. Interviews are conducted throughout the year. The major concern of the placement office is to assist both students and alumni in finding positions consistent with their career objectives.

The Public Administration Institute provides an interdepartmental administrative framework for the study of public administration, public management, and public policy at LSU. Academic programs, research activities, and public service endeavors are included in the mission of this institute.

Academic programs include the Master of Public Administration, as well as related undergraduate programs in the E. J. Ourso College of Business Administration and the College of Arts & Sciences. Research activities include organizing major studies of importance to state and local governments. Public service activities include serving on state commissions, providing executive sessions for top state management, and working in conjunction with the Public Management Program on training all state employees.
