The College of Arts & Sciences' primary purpose is to afford the student liberal education, which by its nature is broad rather than narrow, devoted to intellectual development and discipline rather than to the acquisition of technical skills. It should give the student some knowledge of the achievements of the human mind, with special reference to the western civilization of which both the ancient world and contemporary America are parts; the historical and cultural backgrounds essential to a true understanding of our world; and above all, orderly thinking processes and a scale of values by which the distinction can be made between permanent and trivial, substantial and pretentious, good and bad. To that end, some familiarity with historical and political studies, the sciences, and the arts is necessary.

As a human being and as a citizen, the student will find this education of lasting significance. As a member of a profession, each student will find desirable backgrounds for scholarship and teaching in all fields of knowledge and for law and medicine, which stress, increasingly, the value of broad intellectual training.

The curricula within the college require a number of courses which are deemed essential—individually and as a group—to the intellectual competence at which the liberal education aims; in addition to these, the student has electives which may be used to further general knowledge or to specialize in certain fields.

To accomplish its primary purpose, the college offers Bachelor of Arts, Bachelor of Science, and Bachelor of General Studies degrees. Students may choose from 22 major areas of study and 32 concentrations. By completing a major in the college, the student will obtain a much broader background than is generally possible under the standard curriculum. The advantages of broad training for everyday life are obvious. Moreover, the added breadth of knowledge will be helpful in case the student continues beyond the bachelor's degree level. The teaching divisions within the college, the various curricula, and the degrees which are offered are shown in the chart on the following page.

**STUDENT RESPONSIBILITY**

Students in this college bear final responsibility for selection of their academic programs and adherence to all published regulations and requirements of the college and the University. Each student must see a counselor for a final degree checkout during the semester prior to the semester in which the degree is to be awarded.

Ignorance of a rule is not grounds for waiving that rule.

**ADMISSION REQUIREMENTS**

Students will be admissible to the College of Arts & Sciences if they have earned at least 24 semester hours, have a grade point average of at least 2.00 (“A” = 4) in all work taken within the LSU System and in all work taken overall; completed ENGL 1001 with a “C” or better; and completed three hours of the general education analytical reasoning requirement. Students majoring in psychology, communication sciences and disorders, or any of the secondary education areas of concentration must have a GPA of at least 2.50 in all work taken within the LSU System and in all work taken overall. Students majoring in any of the secondary education areas of concentration must have a passing score on the PRAXIS I assessments to declare their respective concentration.

Transfer students from other divisions of the University and other accredited colleges and universities must meet the eligibility requirements stated above. Transfer credits acceptable for admission shall be valid for degree credit in the college only to the extent to which they represent courses acceptable in the curricula of the college.

**GENERAL EDUCATION REQUIREMENTS**

General education requirements of the University are included in the curricula of the various departments in the college. For specific information concerning these requirements, see the “General Education Requirements” section of this catalog.

*Both the Bachelor of Arts and the Bachelor of Science may be earned in geography and psychology.*

- A minimum of 30 semester hours in residence in the college. The last year of work (last 30 semester hours) will be taken in residence in the LSU campus.

- **Foreign Language**—A level of proficiency in one foreign language as required by the student's major. Students should take a placement test and register at the appropriate level. Credit, up to a maximum of 14 semester hours, may be earned by placement. Students who have a native fluency in a language other than English may satisfy the foreign language requirement in one of three ways: (a) by completing the prescribed number of hours in the curriculum for the B.A. or B.S. degree in a language other than English or their native language; (b) by taking a minimum of 12 hours in courses numbered 3000 or above in their native language; or (c) by taking nine semester hours of English and/or communication studies above the minimum requirements, as stated in the curriculum for the B.A. or the B.S. degree. (Only three hours may be earned in English 2001, 2002, or 2010 to meet this requirement.) Professional and specialized courses in communication studies may not be counted toward this requirement.

- **GPA Maintenance**—A student who fails to earn a 2.00 semester average in any one semester, regardless of overall GPA, will be placed on college probation. To be removed from college probation, a student must earn a 2.00 or better semester GPA, correct course deficiencies, and make satisfactory progress in the degree program. A student who fails to earn a 2.00 GPA for two consecutive semesters, regardless of overall GPA, will be dropped from the college.

ENROLLMENT IN TWO DEGREE PROGRAMS

Double Majors—Students may pursue double majors in this college. By completing all residence and academic requirements for the two programs, a student may earn one bachelor’s degree with two majors.

Dual Degrees Within the College of Arts & Sciences—Students may pursue dual degrees in this college. Both majors must be offered by departments within the college. By completing residence and academic requirements, and earning 30 hours over the degree requirements, a student may earn two separate bachelor’s degrees.

Dual Enrollment in the College of Arts & Sciences and a Second Academic College—By completing residence and academic requirements for two degree programs and earning 30 hours more than the degree requiring the fewer number of hours, a student can earn two bachelor’s degrees. The student must be accepted for admission to both colleges. In addition, the student must declare a home college where registration will be initiated and permanent files maintained. It is the student’s responsibility, however, to maintain contact with the second college to ensure that satisfactory progress is being made toward that degree.

REQUIREMENTS FOR A SECOND BACHELOR’S DEGREE

To qualify for a second bachelor’s degree in this college, students must meet the admission requirements of the college and the department. Once admitted, students must complete (with at least a 2.00 GPA) a minimum of 30 semester hours, including any degree requirements not previously met. The 30 hours must be completed in residence in the College of Arts & Sciences.

MINOR FIELD REQUIREMENTS (OPTIONAL)

Although students are not required to pursue a minor field (except in the general studies major), they may choose to do so under the following guidelines:
• Earn a minimum of 15-18 semester hours in the minor field, of which at least six semester hours must be in courses taken on this campus at the 3000- and/or 4000-level; see individual departments in the “Departments, Schools, and Curricula” section of this chapter for more specific requirements.

• Earn a minimum gpa in the minor field of 2.00 on all work taken in the LSU System and on all work taken.

• Courses used to satisfy minor requirements may not be taken on a pass/fail basis.

Minor fields may be selected from any major field currently offered by the college in which appropriate requirements for a minor may have been established or any field of an interdisciplinary nature for which a minor has been approved by the Faculty Senate Courses and Curricula Committee and the Office of Academic Affairs.

Minors may also be taken in fields outside the college if:

• the total number of semester hours does not exceed 24 (total number of non arts and sciences electives that may be counted toward graduation);

• the work conforms to guidelines established by the department, school, and college concerned;

• the work meets the general minor field requirements of the College of Arts & Sciences, as stated above.

TEACHER PREPARATION PROGRAM FOR GRADES 6-12

The departments of English, Foreign Languages & Literatures, French Studies, History, and Mathematics offer undergraduate degree programs with an area of concentration in secondary education (middle school and high school). Students in the program may receive a bachelor’s degree in English, Spanish, French, history or mathematics and qualify for teacher certification. The curricula have been developed cooperatively with faculty in the College of Education and include courses taught jointly by faculty in the College of Arts & Sciences and the College of Education. Students completing these degree programs and meeting any additional requirements of the Louisiana State Department of Education will be eligible for certification in the state of Louisiana as teachers in grades 6-12.

Admission to any secondary education concentration requires a minimum gpa of 2.50 and passing scores on the PRAXIS I assessments. Students who might have an interest in middle and high school teaching should choose to take EDCI 2001 as one of their general education social sciences courses in the freshman or sophomore year. Details of the programs and requirements for admission, continuation, graduation and certification can be obtained from the counselors in the College of Arts & Sciences. The curriculum for each major (English, French, Spanish, history, and mathematics) is listed in the departmental sections of this catalog as a secondary education concentration. Students are required to achieve passing scores on the PRAXIS I assessment prior to enrollment in 3000-level EDCI courses. They are expected to take the required PRAXIS II assessments during the last semester of course work prior to student teaching. They must pass all required sections of the PRAXIS II Series prior to graduation. A second option for students interested in teaching in the above areas at the middle/high school level is to pursue a traditional bachelor’s degree in the content area and then complete a master’s degree in the LSU College of Education. The master’s degree program (Holmes Program) begins in June and requires 15 months of course work and classroom experience leading to both the master’s degree and teaching certification. Information about the program and potential scholarship assistance is available through the College of Education.

PLACEMENT SERVICES

Students in this college may use the services of the University’s Career Services Center. These services include counseling, job-seeking skills workshops, job search handbooks, résumé service, career days, and on-campus recruiting and interviews.

STUDY ABROAD

Students in the College of Arts & Sciences are encouraged to participate in the study abroad programs administered by the Office of Academic Programs Abroad and the International Student Exchange Program. Students who participate in these programs must receive departmental evaluation of the courses to be taken prior to going abroad. In addition, students must make an appointment with a counselor to ensure that degree credit will be granted upon return to LSU.

National Student Exchange

LSU cooperates with a number of other universities throughout the United States in an exchange program. Students may spend one year (usually the junior year) at another university at little or no more cost than they pay at LSU. Additional information can be obtained from the Office of Academic Programs Abroad.

PREPARATION FOR THE STUDY OF LAW

Because of the rich complexity of this discipline, students with very different academic backgrounds can undertake and excel in the study of law. There is no single curriculum or course of study which is prerequisite to or guarantees success in law school. Curricula in the College of Arts & Sciences provide excellent preparation for students who intend to study law.

The degree requirements of the college ensure the development of the following skills, which are essential components of pre-law training: (1) the ability to express oneself competently in writing; (2) the ability to understand the human institutions and values with which the law deals; and (3) the ability to think creatively. Students who intend to pursue a legal career are therefore encouraged to choose a curriculum in the College of Arts & Sciences.

Interested students should contact the pre-law advisers in the College office for additional information.

A&S STUDENT COUNCIL/CLUBS

The college’s Student Council is composed of student representatives from each of the college’s departments, as well as members at large. The purpose of the council is to enhance the academic environment in the college. In addition, many departments sponsor clubs with programs of interest to majors.

PHI BETA KAPPA

Seniors and juniors with gpas of at least 3.60 and 3.90, respectively, are considered for membership in Phi Beta Kappa, the oldest scholastic honor society in the United States. Excellence in a variety of intellectual disciplines, rather than proficiency in a single field of study, is the major criterion for election.

The academic record should include satisfactory completion of the general education requirement, including two courses in English or American literature or literature in a foreign language (if not the major field); six-hour sequences in both a life science and a physical science, with an additional two hours of related laboratory work in one of these fields; upper division courses (3000-level or above) in at least two different humanities or social sciences outside the major; and electives that show a commitment to a liberal education.

Sophomores and juniors should consult with Phi Beta Kappa officers for more specific information. Specific requirements are described on the Phi Beta Kappa Web site www.lsu.edu/student_organizations/phil beta kappa/.

PHI KAPPA PHI

Phi Kappa Phi, a national scholastic honor society founded in 1897, now contains nearly 300 chapters nationwide. It is one of the most prestigious scholastic honor societies in the United States. The LSU chapter was founded in 1930 as the 43rd chapter in the nation. At the present time, the national office is located on this campus in the French House.

The mission of Phi Kappa Phi is to recognize and promote academic excellence in all fields of higher education and to engage the community of scholars in service to others. Phi Kappa Phi is unique because it recognizes superior scholarship in all academic fields, rather than restricting membership to a limited field. Juniors in the top 7.5 percent and seniors and graduate students in the top ten percent of their classes may be invited to become members of Phi Kappa Phi. New LSU Phi Kappa Phi members are initiated and honored in the spring semester each year and wear identifying ribbons on their academic gowns at commencement exercises.

GRADUATION WITH COLLEGE HONORS

To graduate “with College Honors” in the College of Arts & Sciences, a student must meet the following requirements:

• achieve “Sophomore Honors Distinction;”
• take at least 12 semester hours of honors seminars or departmental honors courses beyond the minimum required for “Sophomore Honors Distinction;”
• register in a curriculum offered in the College of Arts & Sciences;
• complete a curriculum of courses approved by the department concerned and by the dean and the faculty of the Honors College. This curriculum should be developed using the general curricular principles of the college, the purposes of which are to afford students a liberal education and to include (besides the major field) historical and political studies, the life and physical sciences, the humanities, and the arts;
• demonstrate competence in a major field by doing independent research, writing a senior thesis, and taking an oral examination. The thesis counselor and one additional member of the student’s committee must be from the student’s major department;
• after the freshman year, maintain at least a 3.33 gpa (“A” = 4.00).

Besides courses offered through the Honors College, other honors courses are offered through various departments, including:

The undergraduate curriculum is designed to provide majors with a liberal arts education and to prepare them for entry into graduate programs in communication disorders. In the master’s program, students are provided with clinical experiences and academic course work.

The doctoral program is geared toward the development of scholarship and research skills to prepare students for traditional academic positions, both in the basic sciences of speech, language, and hearing and in clinical aspects of communication disorders.

LSU Speech and Hearing Clinic • As part of its training program, which is accredited in speech/language pathology, the department maintains a clinic for the diagnosis and treatment of communication disorders. Clinical services are available to any individual, University student, or community member having speech, hearing, or language problems. Services are free to LSU students.

Disorders treated include articulation, dysfluency, cleft palate, voice disorders, aphasia, cerebral palsy, children's language disorders, and hearing disorders.

Graduate students concentrating in speech/language pathology obtain practicum experience in the University clinic and in community clinics with which the University training program is affiliated, such as the Baton Rouge Speech and Hearing Foundation, Baton Rouge General Medical Center, Ochsner Clinic, Our Lady of the Lake Regional Medical Center, Earl K. Long Medical Center, Veteran’s Administration hospitals, public schools, and other sites.

Those requesting clinical services should contact the Speech and Hearing Clinic in Hatcher Hall (225/578-2545).

To graduate with a minor in communication studies, a student must complete CMST 1150 and at least 12 additional hours in departmental courses, of which at least six semester hours must be in courses numbered above 3000.

The communication studies program has three areas—communication theory, performance of literature, and rhetoric and public address. Students may choose a program in communication studies which combines all three areas or they may concentrate in one area.

Students in communication studies investi-gate communication processes as they occur within and among individuals, groups, organizations, and societies. They study interpersonal and nonverbal communication, public speaking, rhetorical criticism, history of public address, argumentation and persuasion, organizational communication, performance of literature, political communication, film, group discussion, and other aspects of communication.

Analytical and critical thinking skills are developed. Students learn to communicate more effectively and to understand as well as facilitate the communication of others. Careers in law, government, teaching, social service, speech writing, public relations, broadcasting, and advertising all rely on the ability to communicate successfully.

Opportunities for extracurricular student participation include debate, discussion, and individual events. Several reading hours, as well as public performances, are presented each semester for those interested in the performance of literature.

Geography

Students majoring in geography may earn either the Bachelor of Arts or Bachelor of Science degree. Students interested in physical geography normally enter the Bachelor of Science program, and those interested in human geography enter the Bachelor of Arts program.

All requirements specified by the College of Arts & Sciences for these respective degrees must be fulfilled. Candidates for the bachelor's degree with a major in geography must complete a curriculum of 34 semester hours, consisting of 16 hours of core courses (Geography 1001, 1003, 2050, 2051, 2055, and 3999), nine hours of mapping sciences, and for the Bachelor of Arts nine hours in human geography (six hours systematic and three hours regional) or for the Bachelor of Science nine hours in physical geography (See the section, “Courses of Instruction”).

Students may elect to modify the curriculum to fit specific needs, but this must be done in consultation with the departmental adviser. Special emphases are offered in mapping sciences, cultural and historical geography, economic and urban geography, Latin America, Eastern Asia, coastal and fluvial geomorphology, climatology and hydroclimatology, and biogeography.

Students majoring in geography must pay a field service fee of $20 per semester for undergraduates and $25 per semester for graduates. Students not majoring in geography or anthropology who schedule courses requiring field service will be assessed a prorata part of the transportation costs, as determined by the department chair.

Requirements for a minor in geography are one course selected from Geography 1001, 1003, 2062; Geography 2050 and 2051; one course selected from Geography 2039, 4019, 4020, 4041, 4044, 4045, and 4047; and two additional 4000-level geography courses.

Geography 4999 is an honors course. Geology 4031 may be taken for elective geography credit.

Anthropology

A Bachelor of Arts is offered in anthropology. Because it is a broad study of mankind, students majoring in anthropology are urged to take courses in the sciences, the social sciences, and the humanities.

Departmental course requirements are few. Students must complete Anthropology 1001 and 1003 and at least three courses from the following: Anthropology 2015, 2051, 3060, 4040. Course 2055, 2154, or 2155 in a foreign language must also be completed. A minimum of 24 semester hours in anthropology is required. Courses in archaeology, cultural anthropology, folklore, physical anthropology, and anthropological linguistics are available.

Through consultation with their departmental counselor, students design a specific program to fit their needs.

Because anthropology is a field science, students participate in numerous field trips. To help defray expenses, a field service fee of $20 per semester is charged to undergraduate majors and $25 per semester for graduate majors. Nonmatriculating in field trip courses will be assessed a fee on a pro rata basis.

Requirements for a minor in anthropology are Anthropology 1001, 1003, and nine hours to be taken from the following three groups, with no more than six hours total from any one group:

- Group 1 (method and laboratory) — Anthropology 2016, 3401, 4006, 4010, 4020, 4021, 4083, 4090, Group 2 (area) — Anthropology 2050, 3004, 3015, 4003, 4004, 4015, 4016, 4017, 4023, 4050, 4051, 4053, 4470, 4475; and Group 3 (topical) — Anthropology 2015, 2051, 2423, 3060, 4018, 4031, 4040, 4060, 4064, 4074, 4081, 4082, 4085, 4086, 4440. In addition, Anthropology 3909, 4909, 4998, and 4999 may be included in the nine hours. **INTERNATIONAL STUDIES (INTERDEPARTMENTAL PROGRAM)**

**DIRECTOR • Gasiorowski**

**OFFICE • 204 Stubbs Hall**

**TELEPHONE • 225/578-2550**

**WEB SITE • www.artsci.lsu.edu/intl**

The international studies program offers an interdisciplinary major intended to prepare students for careers in the global arenas. An undergraduate minor in international studies is also available. See the section “Minor Field Requirements” in this chapter.

The degree is designed to equip graduates with critical skills, flexible thinking, and a cosmopolitan view of world issues, to enable them to work comfortably across linguistic, cultural, and disciplinary borders. To achieve this, the curriculum cuts across traditional departmental divisions, combining insights from different disciplines around a common regional or global focus. Students are helped to undertake internships, encouraged to study abroad, and recommended to combine the international studies major with a minor in a second field such as business, mass communication, political science, or engineering.

Considerable freedom is allowed in shaping the degree requirements to suit individual geographical and topical interests. However, the precise selection and sequencing of course work should be planned well in advance, as soon as the major is declared, in consultation with the Associate Director.

The curriculum comprises the following five elements, which students must complete in the required sequence. For additional requirements for general education courses and approved electives, see “Degree Requirements for the College” in this chapter.

- **Core Curriculum (12 hrs.)**—During the freshman and sophomore years, prospective majors must complete the preparatory, multidisciplinary core curriculum by taking one course from each of the following four disciplines: ANTH 1003 or 2051, GEOG 1001 or 1003, HIST 1007, POLI 2057. These courses are the prerequisites for the gateway course.

- **Gateway Course (3 hrs.)**—All majors must complete the junior-level, interdisciplinary course, INTL 3001. This course is a prerequisite for the senior-level capstone seminar.

- **Area of Concentration (21 hrs.)**—Courses for the areas of concentration should ideally be taken during the junior and senior years, and most of the requirements must be completed before admission to the senior capstone seminar. Students may choose from ten areas of concentration, which have either a regional or global focus.

- **Foreign Language (hrs. vary)**—Students must demonstrate competency in a language relevant to their regional focus. (See details below).

- **Senior Capstone Course (3 hrs.)**—The senior capstone seminar, INTL 4003, is intended primarily for graduating international studies majors in their final semester. Prerequisites are INTL 3001 and 9 hrs. of additional upper-level courses in the areas of concentration, all of which must be completed before admission to the seminar. Non-majors may be admitted to the seminar by special arrangements with the instructor.

### Areas of Concentration

All students majoring in international studies must complete 15 hours in a primary area of concentration, and six hours in a secondary area of concentration. Areas of concentration are classified as either regional or global. The regional areas of concentration are Africa and the Middle East, Asia, Europe, Latin America, or Russian and Central Asia. The global areas of concentration are Global Studies, Global Diplomacy, Environment and Development, or Colonialism and Diasporas. Students must select one regional and one global area of concentration. Thus if a regional area of concentration is chosen as the primary area of concentration, then the secondary area of concentration must be global, and vice versa.

Students must meet language competency standards in a language appropriate to their regional area of concentration.

Note: The following course listings are not exhaustive. Special topics classes are not included, but, if relevant, may be counted towards a concentration with prior approval of the Associate Director. As many of the listed courses are offered either infrequently or on alternate years, students are advised that they should check availability with departments and plan their course work schedule well in advance.

The Bachelor of Arts in Liberal Arts enables students in the College of Arts & Sciences to earn a bachelor of arts degree with a concentration in a variety of areas in which no formal major is offered. The program is designed to give students the opportunity to become broadly educated in the liberal arts, while satisfying the requirements for specialized areas of concentration. Currently, concentrations are offered in African and African-American studies, art history, and studio art. Specific courses required for completion of the concentrations are listed below.

Students majoring in mathematics may choose from several areas of concentration. (See “Areas of Concentration” below.) Each concentration requires the following lower division mathematics courses (totaling 22 sem. hrs.): 1550 (or 1551), 1552 (or 1553), 2057 (or 2058), 2060, 2085 (or 2086), and two courses
from 2020, 2025, 2030. Each concentration requires additional courses (see below) and
capstone course in Mathematics (MATH 4020). Credit for mathematics courses
numbered below 1550 will not be counted
toward the required credits for mathematics majors.

Students selecting the computer science
concentration must have a minimum gpa of
2.00 in all mathematics and computer science
courses, as well as in all mathematics courses,
to be eligible for a bachelor’s degree.

Those students who are planning to pursue
a graduate degree in mathematics are strongly
advised to include MATH 4031, 4032, and
4200 in their curriculum even if they do not
select the mathematics area of concentration.

The requirements for an undergraduate
minor in mathematics are as follows: MATH
1550 (or 1551), 1552 (or 1553), 2057 (or
2058), 2085 (or 2086 or 2070 or 2090), and
at least nine semester hours at the 3000- or 4000-
level, but excluding MATH 3903, 3998, and
4005.

Honors courses offered in mathematics are
MATH 1551, 1553, 2058, and 2086. The
honors option is available to students in upper
division mathematics courses. (See “Honors
Option” in the Honors College section in this
catalog.) A special curriculum leading to the
B.S. degree in mathematics with departmental
honors is offered. Details are available from the
departmental office.

Religious Studies is a traditional part of a university
education. This department offers a wide range of courses dealing
with fundamental philosophical questions and with the history of
philosophy. An undergraduate major or minor
in philosophy provides background for further study in law, computer
science, history, linguistics, literature, medicine, the business
disciplines, and other fields.

Some philosophy courses deal with issues
that arise in other fields of study and in
professional and vocational disciplines. Such courses
include professional ethics, bioethics, philosophy
of art, philosophy of science, and philosophy
of technology. Logic is especially
recommended for students in business, mass
communications, and prelaw. The ethics courses are
especially recommended for students in business,
education, engineering, mass com-

munication, prelaw, premedicine, nursing, and other health related fields. See course descriptions for details.

A minor in philosophy requires 15 hours of philosophy, at least six of which must be at the 3000/4000 level.

A minor in religious studies requires 15 semester hours of REL courses, including at least 3 hours in each of the following areas:
- Western Religions (Christianity or Judaism)
- Eastern Religions (Nonwestern religions)
- Theoretical Religion.

Several REL courses are cross-listed with other departments. These courses should be taken under the REL rubric, if they are to count toward the 27 hours needed for the concentration or toward the 15 hours needed for the minor.

Several honors tutorials and seminars are offered for qualified students (Philosophy 2034, 2036, 2952, 2953, 2963, 2964, 2965, 3901, and 3902), and a special curriculum leading to the B.A. degree with departmental honors in philosophy is offered. Details are available from the departmental office.

**CURRICULUM IN PHILOSOPHY**

**TOTAL SEM. HRS. • 128**

Students must elect a concentration in either philosophy or religious studies.

Students concentrating in philosophy are required to complete 30 hours, including PHIL 2010 or 4010, 2020 or 4943, 2033 and 2035, two semesters of PHIL 2110 and 16 hours of electives. At least 15 of the 30 hours of philosophy must be in courses numbered 3000 and above, and at least 6 of the 15 must be at the 4000-level. Degree credit will not be allowed for more than 6 hours of courses numbered below 2000.

Students concentrating in religious studies must complete a minimum of 27 semester hours of religious studies (REL) courses, including REL 3027 and 2029 (or 2030) plus 21 hours of REL electives. At least 15 hours must be in REL courses numbered 3000 and above, and at least six of the 15 must be at the 4000 level. Electives must include a minimum of 3 hours in each of the following areas:
- Nonwestern Religions—REL 4600, 4191, 4800.
- Theoretical Religion—REL 2028, 3015, 3028, 3201, 3236, 3300, 4032, 4050, 4300, 4944.

Consult “Degree Requirements of the College” in this section of the catalog for specific instructions regarding electives and the general education life and physical sciences, literature, mathematics, and social sciences requirements.

*If sequence is taken in life science, then alternate science should be in the physical science category and vice versa.

Functions of the department are to conduct teaching and research in the College of Arts & Sciences and the Graduate School, to provide an undergraduate degree program in sociology including concentrations in applied sociology, criminology and rural sociology, and to conduct research in rural sociology for the Louisiana Agricultural Experiment Station.

The department is research-oriented and committed to the further development of sociology as a science as well as to the application of sociological principles in societal programs. With respect to its teaching responsibilities, the department contributes to preprofessional preparation of undergraduates and develops professional sociologists at the graduate level.

In order to graduate with a minor in sociology, students are required to complete Sociology 2001 and at least 12 additional hours in sociology, six semester hours of which must be in courses at the 3000-level or above. A minor in rural sociology is offered through the College of Agriculture. See the “College of Agriculture” section of this catalog for the requirements.

A special program leading to the B.A. degree with departmental honors in sociology is also offered. Detailed information is available from the department office.

The bachelor of arts degree in Women’s and Gender Studies is an interdisciplinary degree that cuts across traditional departmental lines and brings together insights from various disciplines, while fostering particular expertise in the student’s own field of interest.
