The College of Arts & Sciences' primary purpose is to afford the student a liberal education, which by its nature is broad rather than narrow, devoted to intellectual development and discipline rather than to the acquisition of technical skills. It should give the student some knowledge of the achievements of the human mind, with special reference to the western civilization of which both the ancient world and contemporary America are parts; the historical and cultural backgrounds essential to a true understanding of our world; and above all, orderly thinking processes and a scale of values by which the distinction can be made between permanent and trivial, substantial and pretentious, good and bad. To that end, some familiarity with historical and political studies, the sciences, and the arts is necessary.

As a human being and as a citizen, the student will find this education of lasting significance. As a member of a profession, each student will find desirable backgrounds for scholarship and teaching in all fields of knowledge and for law and medicine, which stress, increasingly, the value of broad intellectual training.

The curricula within the college require a number of courses which are deemed essential—individually and as a group—to the intellectual competence at which the liberal education aims; in addition to these, the student has electives which may be used to further general knowledge or to specialize in certain fields.

To accomplish its primary purpose, the college offers Bachelor of Arts, Bachelor of Science, and Bachelor of General Studies degrees. Students may choose from 21 major areas of study and 40 concentrations. By completing a major in the college, the student will obtain a much broader background than is generally possible under the standard curriculum. The advantages of broad training for everyday life are obvious. Moreover, the added breadth of knowledge will be helpful in case the student continues beyond the bachelor's degree level. The teaching divisions within the college, the various curricula, and the degrees which are offered are shown in the chart on the following page.

STUDENT RESPONSIBILITY

Students in this college bear final responsibility for selection of their academic programs and adherence to all published regulations and requirements of the college and the University. Each student must see a counselor for a final degree checkout during the semester *prior to* the semester in which the degree is to be awarded.

Ignorance of a rule is not grounds for waiving that rule.

ADMISSION REQUIREMENTS

Students will be admissible to the College of Arts & Sciences if they have earned at least 24 semester hours, have a grade point average of at least 2.00 ("A" = 4) in all work taken within the LSU System and in all work taken overall; completed ENGL 1001 with a "C" or better; and completed three hours of the general education analytical reasoning

requirement. Students majoring in psychology, communication sciences and disorders, or any of the secondary education areas of concentration must have a gpa of at least 2.50 in all work taken within the LSU System and in all work taken overall. Students majoring in any of the secondary education areas of concentration must have a passing score on the PRAXIS I assessments or minimum ACT composite of 22 or minimum SAT composite of 1030 to declare their respective concentration.

Transfer students from other divisions of the University and other accredited colleges and universities must meet the eligibility requirements stated above. Transfer credits acceptable for admission shall be valid for degree credit in the college only to the extent to which they represent courses acceptable in the curricula of the college.

GENERAL EDUCATION REQUIREMENTS

General education requirements of the University are included in the curricula of the various departments in the college. For specific information concerning these requirements, see the "General Education Requirements" section of this catalog.

DEGREE REQUIREMENTS OF THE COLLEGE

General Requirements

In order to qualify for a bachelor's degree in this college, a candidate must satisfy these requirements:

- Meet departmental requirements for the major and all university requirements as detailed in the *General Education Requirements* chapter of this catalog, except that the general education *humanities* requirement cannot be fulfilled with a foreign language. (Students who break residence, either voluntarily or by compulsion, for at least two consecutive semesters *may not* elect a catalog earlier than the one in force at the time of their re-entry.)
- A minimum gpa of 2.00 ("A" = 4) on all work taken in the LSU System and on all work taken overall.
- A minimum gpa in the major field of 2.00 ("A" = 4) on all work taken in the LSU System and on all work taken.
- A minimum grade of "C" in all academic content (major) and education courses for students in secondary education concentrations (English, French, history, mathematics, or Spanish).
- A minimum of 30 semester hours in courses numbered 3000 or above. A minimum of 45 hours in courses numbered 3000 or above for the general studies major (15 of which must be at the 4000-level).
- Degree credit will not be allowed for more than nine semester hours of 1000-level mathematics courses below 1550.
- A minimum of 15 semester hours in residence in the major field, including at least nine semester hours in courses numbered 3000 or above.

- A minimum of 30 semester hours in residence in the college. The last year of work (last 30 semester hours) will be taken in residence in this college on the LSU campus.
- *Foreign Language*—A minimum of 14-16 credits (four semesters) in a foreign language for the BA or BS degrees. Students should take a placement test and

register at the appropriate level.

Students who have a native fluency in a language other than English may satisfy the foreign language requirement in one of three ways: (a) by completing the prescribed number of hours in the curriculum for the BA or BS degree in a language *other than* English or their native language; (b) by taking a minimum of 12 hours in courses

numbered 3000 or above in their native language; or (c) by taking nine semester hours of English and/or communication studies above the minimum general education or major requirements. (Only three hours may be earned in English 2001, 2002, or 2010 to meet this requirement. Professional and specialized courses in communication studies may not be counted

toward this requirement.)

Students who have a native fluency in a language other than English should consult credit restrictions in that language under the appropriate foreign language department entry in this section of the catalog.

- **Grade Point Average Maintenance**—A student who fails to earn a 2.00 semester average in any one semester, regardless of overall gpa, will be placed on college probation. To be removed from college probation, a student must earn a 2.00 or better semester gpa, correct course deficiencies, and make satisfactory progress in the degree program. A student who fails to earn a 2.00 gpa for two consecutive semesters, regardless of overall gpa, will be dropped from the college.
- **Scholastic Requirements**—Full-time students are expected to make reasonable and satisfactory progress in a degree program. For General Studies majors, satisfactory progress is defined as two courses per minor per academic year until the minor is completed. For all other majors, satisfactory progress is defined as three courses per academic year in the major. A student who fails to make satisfactory progress in his or her major in any one academic year will have his or her record reviewed with the possibility of being placed on college probation for the following academic year. Any student who fails to make satisfactory progress in their major for two consecutive academic years will be dropped from the college.

The college reserves the right to review at any time a student's suitability to continue in a degree program.

ENROLLMENT IN TWO DEGREE PROGRAMS

Double Majors—Students may pursue double majors in this college. By completing all residence and academic requirements for the two programs, a student may earn one bachelor's degree with two majors.

Dual Degrees Within the College of Arts & Sciences—Students may pursue dual degrees in this college. Both majors must be offered by departments within the college. By completing residence and academic requirements, and earning 30 hours over the degree requirements, a student may earn two separate bachelor's degrees.

Dual Enrollment in the College of Arts & Sciences and a Second Academic College—By completing residence and academic requirements for two degree programs and earning 30 hours more than the degree requiring the fewer number of hours, a student can earn two bachelor's degrees. The student must be accepted for admission to both colleges. In addition, the student must declare a home college where registration will be initiated and permanent files maintained. It is the student's responsibility, however, to maintain contact with the second college to ensure that satisfactory progress is being made toward that degree.

REQUIREMENTS FOR A SECOND BACHELOR'S DEGREE

To qualify for a second bachelor's degree in this college, students must meet the admission requirements of the college and the department. Once admitted, students must complete (with at least a 2.00 gpa) a minimum of 30 semester hours, including any degree requirements not previously met. The 30 hours must be completed in residence in the College of Arts & Sciences.

MINOR FIELD REQUIREMENTS (OPTIONAL)

Although students are not required to pursue a minor field (except in the general studies major), they may choose to do so under the following guidelines:

- Earn a minimum of 15-18 semester hours in the minor field, of which at least six semester hours must be in courses taken on this campus at the 3000- and/or 4000-level; see individual departments in the "Departments, Schools, and Curricula" section of this chapter for more specific requirements.
- Earn a minimum gpa in the minor field of 2.00 on all work taken in the LSU System and on all work taken overall.
- Courses used to satisfy minor requirements may not be taken on a pass/fail basis.

Minor fields may be selected from any major field currently offered by the college in which appropriate requirements for a minor have been established or any field of an interdisciplinary nature for which a minor has been approved by the Faculty Senate Courses and Curricula Committee and the Office of Academic Affairs.

Minors may also be taken in fields outside the college if:

- the total number of semester hours does not exceed 24 (total number of non Arts and Sciences electives that may be counted toward graduation);

A student may receive a maximum of 12 semester hours of degree credit in ROTC. No more than eight hours of kinesiology activity courses may count toward degree requirements from this college.

CORRESPONDENCE, EXTENSION, & MILITARY SERVICE CREDIT

A maximum of 30 semester hours of credit in the above categories is acceptable toward meeting degree requirements. Students who wish to have correspondence credits accepted

by this college must make their registration in correspondence courses a matter of record in the office of the dean of the college at the time of such registration.

Students registered in the college may enroll in a maximum of 19 semester hours of combined resident and correspondence course work during a regular semester. They may enroll in a maximum of 12 semester hours of combined resident and correspondence course work during a summer term. *Students may not be enrolled in correspondence course work within their last semester. All correspondence course work must be completed by the last weekday of final examinations in the semester prior to the one in which the student intends to graduate. Depending on the correspondence course, a special time limit may be imposed by the dean's office.*

PASS-FAIL OPTION

Students in the College of Arts & Sciences may register for courses on a pass-fail basis under the following conditions:

- Only *free elective* courses may be taken on a pass-fail basis. Required courses and restricted electives may not be taken on a pass-fail basis. A student *may not* take courses offered by the Honors College on a pass-fail basis.
- A student must have permission (by signature on a petition form) from the dean of this college, the instructor of the course, and the dean of the college in which the course is offered.
- Pass-fail registration must be completed before the final day for adding courses.
- Eligible students may take one course per semester on a pass-fail basis.

Courses offered by the College of Arts & Sciences that are required in a student's curriculum will not be approved on a pass-fail basis.

TEACHER PREPARATION PROGRAM FOR GRADES 6-12

The departments of English, Foreign Languages & Literatures, French Studies, History, and Mathematics offer undergraduate degree programs with an area of concentration in secondary education (middle school and high school). Students in the program may receive a bachelor's degree in English, French, history, mathematics, or Spanish and qualify for teacher certification. The curricula have been developed cooperatively with faculty in the College of Education and include courses taught jointly by faculty in the College of Arts & Sciences and the College of Education. Students completing these degree programs and meeting any additional requirements of the Louisiana State Department of Education will be eligible for certification in the state of Louisiana as teachers in grades six through 12.

Admission to any secondary education concentration requires a minimum gpa of 2.50 and passing scores on the PRAXIS I assessments or a minimum ACT composite of 22 or minimum SAT composite of 1030. Students who might have an interest in middle and high school teaching should choose to take EDCI 2001 as one of their general education social sciences courses in the freshman or sophomore year. Details of the programs and

requirements for admission, continuation, graduation and certification can be obtained from the counselors in the College of Arts & Sciences. The curriculum for each major (English, French, history, mathematics, and Spanish) is listed in the departmental sections of this catalog as a secondary education concentration. Students are required to achieve passing scores on the PRAXIS I assessment or minimum ACT composite of 22 or minimum SAT composite of 1030 and have a 2.50 earned LSU and cumulative gpa prior to enrollment in 3000-level EDCI courses. They should take the required PRAXIS II assessments during the last semester of course work *prior* to student teaching. They must pass all required sections of the PRAXIS II Series, and they must earn at least a "C" grade in all academic content (major), education courses, and any course work so specified by the Louisiana Board of Elementary and Secondary Education prior to graduation.

A second option for students interested in teaching in the above areas at the middle/high school level is to pursue a traditional bachelor's degree in the content area and then complete a master's degree through the LSU College of Education. The master's degree program (Holmes Program) begins in June and requires 12 consecutive months of course work and classroom experience leading to both the master's degree and teaching certification. Information about the program and potential scholarship assistance is available through the College of Education, Office of Student Services.

PLACEMENT SERVICES

Students in this college may use the services of the University's Career Services Center. These services include counseling, job-seeking skills workshops, job search handbooks, résumé service, career days, and on-campus recruiting and interviews.

STUDY ABROAD

Students in the College of Arts & Sciences are encouraged to participate in the study abroad programs administered by the Office of Academic Programs Abroad and the International Student Exchange Program. Students who participate in these programs must receive departmental evaluations of the courses to be taken prior to going abroad. In addition, students must make an appointment with a counselor to ensure that degree credit will be granted upon return to LSU.

National Student Exchange

LSU cooperates with a number of other universities throughout the United States in an exchange program. Students may spend one year (usually the junior year) at another university at little or no more cost than they pay at LSU. Additional information can be obtained from the Office of Academic Programs Abroad.

PREPARATION FOR THE STUDY OF LAW

Because of the rich complexity of this discipline, students with very different academic backgrounds can undertake and excel

in the study of law. *There is no single curriculum or course of study which is prerequisite to or guarantees success in law school.* Curricula in the College of Arts & Sciences provide excellent preparation for students who intend to study law.

The degree requirements of the college ensure the development of the following skills, which are essential components of pre-law training: (1) the ability to express oneself competently in writing; (2) the ability to understand the human institutions and values with which the law deals; and (3) the ability to think creatively. Students who intend to pursue a legal career are therefore encouraged to choose a curriculum in the College of Arts & Sciences.

A&S STUDENT COUNCIL/CLUBS

The college's Student Council is composed of student representatives from the college's departments, as well as members at large. The purpose of the council is to enhance the academic environment in the college. In addition, many departments sponsor clubs with programs of interest to majors.

PHI BETA KAPPA

Seniors and juniors with gpas of at least 3.60 and 3.90, respectively, are considered for membership in Phi Beta Kappa, the oldest scholastic honor society in the United States. Excellence in a variety of intellectual disciplines, rather than proficiency in a single field of study, is the major criterion for election.

The academic record should include satisfactory completion of the general education requirement, including two courses in English or American literature or literature in a foreign language (if not the major field); six-hour sequences in both a life science and a physical science, with an additional two hours of related laboratory work in one of these fields; upper division courses (3000-level or above) in at least two different humanities or social sciences outside the major; and electives that show a commitment to a liberal education.

Sophomores and juniors should consult with Phi Beta Kappa officers for more specific information. Specific requirements are described on the Phi Beta Kappa Web site at www.lsu.edu/student_organizations/hibetakappa/.

PHI KAPPA PHI

Founded in 1897 at the University of Maine, Phi Kappa Phi is the nation's oldest, largest, and most selective honor society for all academic disciplines. Its chapters are on nearly 300 campuses in the United States, Puerto Rico, and the Philippines. Each year, approximately 30,000 members are initiated. Some of the organization's more notable members include former President Jimmy Carter, writer John Grisham, NASA astronaut Wendy Lawrence, and Netscape founder James Barksdale. The LSU chapter was founded in 1930 as the 43rd chapter in the nation.

The mission of Phi Kappa Phi is to recognize and promote academic excellence in all fields of higher education and to engage the community of scholars in service to others. Phi Kappa Phi is unique because it recognizes superior scholarship in *all academic fields*,

rather than restricting membership to a limited field. Juniors in the top 7.5 percent and seniors and graduate students in the top 10 percent of their classes may be invited to become members of Phi Kappa Phi. New LSU Phi Kappa Phi members are initiated and honored in the spring semester each year and wear identifying ribbons on their academic gowns at commencement exercises. Additional information about the Society may be found at www.phikappaphi.org.

GRADUATION WITH COLLEGE HONORS

To graduate "with College Honors" in the College of Arts & Sciences, a student must meet the following requirements:

- achieve "Sophomore Honors Distinction"
- take at least 12 semester hours of honors seminars or departmental honors courses beyond the minimum required for "Sophomore Honors Distinction"
- register in a curriculum offered in the College of Arts & Sciences
- complete a curriculum of courses approved by the department concerned and by the dean and the faculty of the Honors College. This curriculum should be developed using the general curricular principles of the college, the purposes of which are to afford students a liberal education and to include (besides the major field) historical and political studies, the life and physical sciences, the humanities, and the arts
- demonstrate competence in a major field by doing independent research, writing a senior thesis, and taking an oral examination. The thesis counselor and one additional member of the student's committee must be from the student's major department
- after the freshman year, maintain at least a 3.33 gpa ("A" = 4.00)

The undergraduate curriculum is designed to provide majors with a liberal arts education and to prepare them for entry into graduate programs in communication disorders. In the master's program, students are provided with clinical experiences and academic course work necessary for national clinical certification in speech/language/pathology. The doctoral program is geared toward the development of scholarship and research skills to prepare students for traditional academic positions, both in the basic sciences of speech, language, and hearing and in clinical aspects of communication disorders.

LSU Speech and Hearing Clinic • As part of its training program, which is accredited in speech/language pathology, the department maintains a clinic for the diagnosis and treatment of communication disorders including articulation, dysfluency, cleft palate, voice disorders, aphasia, cerebral palsy, children's language disorders, and hearing disorders. Clinical services are available to any individual, University student, or community member having speech, hearing, or language problems. Services are free to LSU students.

Graduate students concentrating in speech/language pathology obtain practicum experience in the University clinic and in community clinics with which the University training program is affiliated, such as the Baton Rouge Speech and Hearing Foundation, Baton Rouge General Medical Center, Ochsner Clinic, Our Lady of the Lake Regional Medical Center, Earl K. Long Medical Center, Veteran's Administration hospitals, public schools, and other sites.

Those requesting clinical services should contact the Speech and Hearing Clinic in Hatcher Hall (225-578-9054).

Communication Studies explores how people sustain and change, experience, and make sense of the world through symbolic action. Students develop conceptual skills to analyze written, oral, and visual messages. Students gain practical experience in such areas such as public speaking, group decision-making, performance, and film. Such skills are elemental to careers in business, government, law, social services, and the arts.

The program consists of three areas: rhetoric, performance studies, and communication theory. In rhetoric, students examine public discourse and persuasion. Course topics include rhetorical criticism, political communication, and visual rhetoric. In performance studies, students investigate everyday life performance, experimental forms, and the performance of literature and other texts, including film and video. In communication theory, students focus on personal and organizational settings, studying such topics as family, health, and nonverbal communicative processes.

Students are encouraged to participate in extracurricular activities, such as public performances in the HopKins Black Box and the Mixon Lyceum, our forensics and debate team.

A minor in communication studies requires CMST 1150 or 1061 and at least 12 additional hours in departmental courses, of which at least six hours must be at the 3000 level or above.

CURRICULUM IN COMMUNICATION STUDIES

TOTAL SEM. HRS. • 120

MAJORS in Communication Studies must complete a minimum of 36 semester hours of approved electives in the department. At least 12 of these hours must be numbered 3000 or above. Twelve hours of core courses are required: CMST 1150; 2060; 2010 or 2064; and 2040.

Consult "Degree Requirements of the College" for specific instructions regarding electives and foreign language requirements. Consult the "General Education" section of the catalog for the University's general education requirements.

The department requires that the two course sequence in natural science be accompanied by two hours of corresponding labs.

Geography

Students majoring in geography may earn either the Bachelor of Arts or Bachelor of Science degree. Students interested in physical geography normally enter the Bachelor of Science program, and those interested in human geography enter the Bachelor of Arts program.

All requirements specified by the College of Arts & Sciences for these respective degrees must be fulfilled. Candidates for the bachelor's degree with a major in geography must complete a curriculum of 33 semester hours for the Bachelor of Arts and 36 semester hours for the Bachelor of Science. Both consist of 15 hours of core courses (Geography 1001, 1003, 2050, 2051, and 2055). For the Bachelor of Arts, nine hours of mapping sciences and nine hours in human geography (six hours systematic and three hours regional) are required, or for the Bachelor of Science, nine to 12 hours of mapping sciences and nine to 12 hours of physical geography are required. (See the section "Curriculum in Geography".)

Students may elect to modify the curriculum to fit specific needs, but this must be done in consultation with the departmental advisor. Special emphases are offered in mapping sciences, cultural and historical geography, economic and urban geography, Latin America, Asia, coastal and fluvial geomorphology, and climatology.

Students majoring in geography must pay a field service fee of \$20 per semester for undergraduates and \$25 per semester for graduates. Students not majoring in geography or anthropology who schedule courses requiring field service will be assessed a pro rata part of the transportation costs, as determined by the department chair.

Requirements for a *minor in geography* are one course selected from Geography 1001 or

1003; Geography 2050 and 2051; one course selected from Geography 2039, 4020, 4041, 4043, and 4045; and two additional 4000-level geography courses.

Geography 4999 is an honors course. Geology 4031 may be taken for elective geography credit.

Anthropology

A Bachelor of Arts is offered in anthropology. Because it is a broad study of mankind, students majoring in anthropology are urged to take courses in the sciences, the social sciences, and the humanities.

Departmental course requirements are few. Students must complete Anthropology 1001 and 1003 and at least three courses from the following: Anthropology 2015, 2051, 3060, 4040. Course 2055, 2154, or 2155 in a foreign language must also be completed. A minimum of 24 semester hours in anthropology is required. Courses in archaeology, cultural anthropology, folklore, physical anthropology, and anthropological linguistics are available.

Through consultation with their departmental counselor, students design a specific program to fit their needs.

Because anthropology is a field science, students participate in numerous field trips. To help defray expenses, a field service fee of \$20 per semester is charged to undergraduate majors and \$25 per semester for graduate majors. Nonmajors participating in field trip courses will be assessed a fee on a pro rata basis.

Requirements for a *minor in anthropology* are Anthropology 1001, 1003, and nine hours to be taken from the following three groups with no more than six hours total from any one group: *Group 1 (method and laboratory)*—Anthropology 2016, 3401, 4006, 4010, 4020, 4021, 4083, 4090; *Group 2 (area)*—Anthropology 2050, 3004, 3015, 4003, 4004, 4015, 4016, 4017, 4023, 4050, 4051, 4053, 4470, 4475; and *Group 3 (topical)*—Anthropology 2015, 2051, 2423, 3060, 4018, 4031, 4040, 4060, 4064, 4074, 4081, 4082, 4085, 4086, 4440. In addition, Anthropology 3909, 4909, 4998, and 4999 may be included in the nine hours. Placement of these courses in the above groups depends on the topic and must be determined by the department on a case-by-case basis.

INTERNATIONAL STUDIES (INTERDEPARTMENTAL PROGRAM)

 WEB SITE • <http://www.lsu.edu/international>

The International Studies (I.S.) Program offers an interdisciplinary major intended to prepare students for careers in the global arena. An undergraduate minor in international studies is also available. See the section "Minor Field Requirements" in this chapter.

The degree is designed to equip graduates with critical skills, flexible thinking, and a cosmopolitan view of world issues, to enable them to work comfortably across linguistic, cultural, and disciplinary borders. To achieve this, the curriculum cuts across traditional departmental divisions, combining insights from different disciplines around a common regional or global concentration. Students are helped to undertake internships, encouraged to study abroad, and recommended to combine the I. S. major with a minor in a second field such as business, mass communication, political science, or engineering. International Studies majors are strongly encouraged to

enroll in a study abroad program which can be arranged through the LSU Office of Academic Program Abroad.

Considerable freedom is allowed in shaping the degree requirements to suit individual geographical and topical interests. However, the precise selection and sequencing of course work should be planned well in advance, as soon as the major is declared, in consultation with the associate director.

The curriculum comprises the following five elements, which students must complete in the required sequence. For additional requirements for general education courses and approved electives, see "Degree Requirements for the College":

- *Core Curriculum (12 hrs.)*—During the freshman and sophomore years, prospective majors must complete the preparatory, multidisciplinary core curriculum by taking one course from *each* of the following four disciplines: ANTH 1003 or 2051, GEOG 1001 or 1003, HIST 1007, POLI 2057. These are the prerequisites for the gateway course.

- *Gateway Course (3 hrs.)*—All majors must complete the junior-level, interdisciplinary course, INTL 3001. This is a prerequisite for the senior-level capstone seminar.

- *Area of Concentration (21 hrs.)*—Courses for the area of concentration should ideally be taken during the junior and senior years, and most of the requirements must be completed before admission to the senior capstone seminar. Students may choose from 10 concentrations, which have either a regional or global focus. (See details below)

- *Foreign Language (hrs. vary)*—Students must demonstrate competency (defined below for each region) in a language relevant to their regional focus.

- *Senior Capstone Course (3 hrs.)*—The senior capstone seminar (INTL 4003) is intended primarily for graduating I. S. majors in their final semester. Prerequisites are INTL 3001 and nine hrs. of additional upper-level courses in area of concentration, all of which must be completed before admission to the seminar.

Areas of Concentration

All students majoring in international studies must complete 15 hours in a primary area of concentration, and six hours in a secondary area of concentration. At least nine hours in the primary concentration must be taken at the 3000 level or above. At least three hours in the secondary concentration must be taken at the 3000 level or above.

Areas of concentration in International Studies are classified as either regional or global. The regional areas of concentration are *Africa, Middle East, Asia, Europe, Latin America, or Russian and Central Asia*. The global areas of concentration are *Global Studies, Global Diplomacy, Environment and Development, or Colonialism and Diasporas*. Students must select one regional and one global area of concentration. Thus if a regional area of concentration is chosen as the primary area of concentration, then the secondary area of concentration must be a global area, and vice versa.

Students must meet language competency standards in a language appropriate to their regional area of concentration. (See below)

Note: The following course listings are not exhaustive. Special topics classes are not included, but, if relevant, may be counted towards a concentration by arrangement with the Associate Director. As many of the listed courses are offered either infrequently or on alternate years, students are advised that they should check availability with departments and plan their course work schedule well in advance.

Students *majoring in mathematics* may choose from several areas of concentration. (See "Areas of Concentration" below.) Each concentration requires the following lower division mathematics courses (totaling 22 sem. hrs.): 1550 (or 1551), 1552 (or 1553), 2057 (or 2058), 2060, 2085 (or 2086), and two courses from 2020, 2025, 2030. Each concentration requires additional courses (see below) and a capstone experience. Credit for mathematics courses numbered below 1550 will not be counted toward the required credits for mathematics majors.

Students selecting the computer science concentration must have a minimum gpa of 2.00 in all mathematics and computer science courses, as well as in all mathematics courses, to be eligible for a bachelor's degree.

Those students who are planning to pursue a graduate degree in mathematics are strongly advised to include MATH 4031, 4032, 4035, 4153, and 4200 in their curriculum even if they do not select the mathematics area of concentration.

The requirements for an undergraduate *minor in mathematics* are as follows: MATH 1550 (or 1551), 1552 (or 1553), 2057 (or 2058), 2085 (or 2086 or 2070 or 2090), and at least nine semester hours at the 3000- or 4000-level, but excluding MATH 3903, 3998, and 4005.

Honors courses offered in mathematics are MATH 1101, 1551, 1553, 2058, and 2086. The honors option is available to students in upper division mathematics courses. (See "Honors Option" in the Honors College section in this catalog.) A special curriculum leading to the BS degree in mathematics with departmental honors is offered. Details are available from the departmental office.

Philosophy is a traditional part of a university education. This department offers a wide range of courses dealing with fundamental philosophical questions and with the history of philosophy. An undergraduate major or minor in philosophy provides background for further study in law, computer science, history, linguistics, literature, medicine, the business disciplines, and other fields.

Some philosophy courses deal with issues that arise in other fields of study and in certain professions and vocations. Such courses include professional ethics, bioethics, philosophy of art, philosophy of science, and philosophy and film. Logic is especially recommended for students in business, mass communication, and prelaw. Ethics courses are especially recommended for students in business, education, engineering, mass communication, prelaw, premedicine, nursing, and other health related fields. See course descriptions for details.

A *minor in philosophy* requires 15 hours of philosophy courses, at least six of which must be at the 3000/4000 level.

A *minor in religious studies* requires 15 semester hours of REL courses, including REL 2027 and 2029. At least six of these hours must be at the 3000/4000 level.

Several REL courses are cross-listed with other departments. These courses should be taken under the REL rubric, if they are to count toward the 27 hours needed for the concentration or toward the 15 hours needed for the minor.

Several honors tutorials and seminars are offered for qualified students (Philosophy 2034, 2036, 2952, 2953, 2963, 2964, 2965, 3901, and 3902), and a special curriculum leading to the BA degree with departmental honors in philosophy is offered. Details are available from the departmental office.
