HONOR SOCIETIES

Three of the most prestigious University honor societies are Omicron Delta Kappa, Phi Beta Kappa, and Phi Kappa Phi. Other honor societies are listed at the Campus Life Web site: www.lsu.edu/campuslife.

Omicron Delta Kappa

Omicron Delta Kappa (ODK) is the national leadership honor society for college students that recognizes and encourages superior scholarship, leadership, and exemplary character. It was founded in 1914 at Washington and Lee University, Lexington, Virginia. ODK was the first college honor society of national scope to recognize and honor meritorious leadership and service in
extracurricular activities and to encourage the exercise of general campus citizenship.

Membership is awarded to undergraduate junior and senior students—and occasionally to students in graduate and professional schools—as well as to faculty, staff, and community members. Student membership candidates must rank academically in the upper 35 percent in their school/college and must show leadership in at least one of five areas: scholarship; athletics; campus or community service; social activities, religious activities, and campus government; journalism, speech, or the mass media; and creative/performing arts. Membership in ODK is a mark of the highest distinction.

Phi Beta Kappa

The oldest academic society in the U.S., Phi Beta Kappa was founded in 1776 at the College of William and Mary. The LSU chapter was installed in 1977 as Beta of Louisiana. For more than two centuries, Phi Beta Kappa has advocated the ideal of a liberal education as a basis for a life-long love of learning and as a way to broaden the perspectives of students, whatever their chosen field of endeavor. At LSU, juniors and seniors with an excellent academic record and an adequate breadth of study are considered for membership. Specific requirements are described at the Phi Beta Kappa Web site which is located at:

www.lsu.edu/student_organizations/phi betakappa/

Phi Kappa Phi

Founded in 1897 at the University of Maine, Phi Kappa Phi is the nation’s oldest, largest, and most selective honor society for all academic disciplines. Its chapters are on nearly 300 campuses in the United States, Puerto Rico, and the Philippines. Each year, approximately 30,000 members are initiated. Some of the organization’s more notable members include former President Jimmy Carter, writer John Grisham, NASA astronaut Wendy Lawrence, and Netscape founder Wendy Davis.

LSU Child Care Center

The LSU Child Care Center has been accredited by the National Association for the Education of Young Children and offers a high quality child care program to students, staff, and faculty. The center exceeds state and national standards that guide developmentally appropriate programs for young children.

Priority for eligibility is given according to the following guidelines:

- Children of full-time students, staff, and faculty of LSU
- Siblings of currently enrolled students
- Children of those individuals with secondary affiliations to LSU (i.e., part-time students, part-time staff, and faculty, LSU alumni, children of LSU students, staff, or faculty, individuals working for the LSU system)
- Children of the community, families who have no affiliation to LSU

Facility

The LSU Child Care Center is a 15,500 square foot one-story facility with separate spaces for 175 full-time children from different age groups ranging from six weeks old to five years old. The center includes 15 classrooms (based on Louis Torelli’s pod design), parent and teacher resource center, multi-purpose room, kitchen, porches off of each classroom for play during rainy weather, and three fenced playground areas (75 square feet per child) with toys and play equipment for infants, toddlers, and preschoolers.

Services

The LSU Child Care Center is one of freedom to learn, grow, and make choices through both structured and unstructured activities. All activities are intentionally planned to help children grow and develop physically, socially, emotionally, and cognitively. The learning atmosphere is one of acceptance, mutual respect, pleasure, fairness, consistency, clear limits and expectations, and encouragement. The predictable, organized environment, with caring adults, clear expectations, and appropriate consequences is designed to support the whole child. Teachers are flexible and allow the children freedom to learn at their own pace.

Families are an integral part of the LSU Child Care Center program. Support, encouragement, and assistance are provided to ensure personal and professional success for parents. Communication with the child’s family is established to share day-to-day happenings and gain new insights about the family’s beliefs and concerns regarding the child’s well-being.

To make on-campus living an enriching experience, LSU students and staff have designed a residential life program to promote learning and personal growth. Residence halls and apartments provide a natural and convenient social setting for students. Residents are seldom more than a 10-minute walk from the library, classes, or campus activities.

One of the greatest advantages in living in residence halls is that the staff is available to assist students with concerns and questions. Studies show that campus residents maintain higher grade point averages than do off-campus students. The housing staff also provides informative programs related to safety, wellness, community service, and a variety of other topics. Many of these programs are led by faculty members.

Prospective students must first be admitted to the University before applying for on-campus housing. The Department of Residential Life begins accepting housing applications on June 1 preceding the academic year they are applying for (example: students applying for housing for fall 2011 may submit their application beginning June 1, 2010). If a student has not been admitted to the University first and submits a housing application/contract, Residential Life will return these items, including the deposit. A student may submit all items once he or she is admitted to the University. The application date for priority consideration is not established until the student has been admitted and has submitted an application for housing with the deposit. The housing application may be completed online or mailed.

On-campus spaces are limited, so students should apply early. There is no on-campus residency requirement and on-campus housing is not guaranteed.

Choices in Residential Living

LSU has 17 residence halls with architectural styles ranging from northern Italian Renaissance, typical of the older campus, to modern buildings. Also for single students there are 184 apartments in a complex called the East Campus Apartments (ECA), and 168 apartments in a complex called the West Campus Apartments (WCA). For married students, single parents, students 21 years or older, and post-doctoral students and research
opportunities will strengthen each student. Residential college will support students as they advance through LSU’s quality engineering program. Faculty involvement and research opportunities will strengthen each student’s connection with the College of Engineering. The Engineering Residential College is housed in Residential College South, a state-of-the-art residence hall which opened in Spring 2008.

Mass Communication Residential College – Transportation

Residential Colleges are structured to create a stimulating living–learning environment through student interaction with faculty and other freshmen beyond the boundaries of the more traditional classroom setting. Students participating in the Residential Colleges reside in the same facility and must enroll in special sections of general academic courses taken with other Residential College students. This environment creates a close-knit academic community similar to the small college experience. With greater academic emphasis and faculty involvement, the Residential College atmosphere encourages studying, provides access to exceptional academic and social support, and makes it easy to establish new friendships. For more information regarding course requirements, visit the Residential Life Web site at www.lsu.edu/housing.

Agriculture Residential College

Incoming freshmen in good standing admitted to the LSU College of Agriculture will have the opportunity to live in the Agriculture Residential College. This residence hall support students as they advance through LSU’s agriculture program. Faculty involvement and research opportunities will strengthen each student’s connection with the Agriculture College, the land-grant tradition dating back to 1862, and the interdisciplinary educational experience that reflects the latest in science and technology. The Agriculture Residential College is housed in the newly renovated and expanded Blake Hall, overlooking Campus Lake.

Science Residential College - Incoming freshmen have declared a major in any basic science field (including biochemistry, biological sciences, microbiology, chemistry, computer science, geology, physics, and mathematics), have participated in an LSU summer workshop such as BIOS or Geology Field Camp, and have been placed into MATH 1022 or higher are eligible to live in the Science Residential College. This living and learning approach to the first-year experience will help empower the next generation of science professionals for success.

Business Residential College - Students in the Business Residential College have unique educational and professional development opportunities to acclimate to a business culture. This residential college is open to first-year students majoring in the E. J. Ourso College of Business. The Business Residential College is housed in Residential College West, a state-of-the-art residence hall which opened in Spring 2008.

Emerging Residential College - Incoming freshmen who have declared a major in engineering and are placed into MATH 1022 or higher will have the opportunity to live in the Engineering Residential College. This residential college supports students as they advance through LSU’s quality engineering program. Faculty involvement and research opportunities will strengthen each student’s connection with the College of Engineering. The Engineering Residential College is housed in Residential College South, a state-of-the-art residence hall which opened in Spring 2008.

Mass Communication Residential College – Transportation

Residential College is specifically designed to offer an educational and social community for the next generation of journalism, public relations, advertising, and political communication professionals. The program will be open to first- and second-year students and any undergraduate international exchange students who are enrolled in the Manship School of Mass Communication. It is housed in Jackson Hall.

Herget Residential College - Students participating in Herget Residential College take several core freshmen courses together creating a “mini-campus” atmosphere in the halls. This program for non-honors students is designed to integrate learning with community living and provide students with greater opportunities to interact with faculty and specially selected upperclass students, and is housed in Herget Hall.

Information Technology Residential College - The Information Technology Residential College is a technology-based program for entering non-honors freshmen of all majors and interests, and is housed in Broussard Hall. Heavy students will enjoy taking some college courses in Broussard Hall’s smart classrooms with faculty members who utilize interactive, multimedia teaching methods and the wireless environment.

Freshman Interest Groups - Freshman Interest Groups (FIGs) are small groups of 20-50 students living together and engaging in linked courses, a community service project, faculty involvement, and several other activities in the designated themes. FIGs provide first-year students a way to make LSU feel smaller in a unique residential environment. The Career Exploration FIG is for students who have not decided on a major or career plan and who are seeking additional support in making these important decisions. It is housed in McVoy Hall. The Health Science FIG is for students interested in nursing and other Allied Health careers, and it is housed in Annie Boyd Hall. For more information regarding current FIGs, visit the Residential Life Web site at www.lsu.edu/housing.

Honors College Housing is for Honors College students in all majors and classifications and is housed in the newly renovated West Laville Hall and Acadian Hall. High-achieving, creative, and motivated students help create a dynamic living and learning environment. East Laville Hall is presently being renovated and is scheduled to reopen for fall 2012. Upon completion, the Honors House will be West and East Laville Halls.

Housing Applications for Residence Halls, East and West Campus Apartments

The Department of Residential Life accepts applications beginning June 1 of the year prior to your fall semester enrollment. For example, for fall enrollment, we begin accepting applications June 1. Students may not apply for housing prior to being admitted to the University. An application for admission must be approved by the Office of Undergraduate Admissions & Student Aid before an application for housing can be submitted. If you are a new student, to increase your chances have your on-campus assignment and the residence hall of your choice. We recommend that you apply for housing as early as possible. Housing is limited and full capacity is reached as early as March. For example, for fall 2010 applications, full capacity was reached and waitlist applications were started on March 31, 2010. Students on the standby list are not guaranteed a space on campus, but will be offered on-campus spaces as cancellations are received.

The East and West Campus Apartments are available to full-time, upper-class students only.

Applying to the Department of Residential Life is a three-step online process:
1. Apply for admission (or be a current student).
2. Upon admission, fill out the online housing application at www.lsu.edu/housing.

Residence Hall and East and West Campus Apartment Rates

LSU provides housing for approximately 5,000 students in air-conditioned residence halls and apartments. Published rates are per semester, per student. For a list of current rates, see the Residential Life Web site at www.lsu.edu/housing. A student living in a room that is not filled to normal capacity will be expected to pay an additional rental charge or to move to another room with a roommate at the same rental charge in the same residence hall. If rooms are available for single occupancy, the charge for single occupancy of a two-student room is 1.5 times the semester rate for full occupancy. Semester rental rates are subject to change at the beginning of a regular semester or summer term.

Residence hall rent is due by the deadline established on the advanced fee bill. Additional information concerning residence hall accommodations may be obtained from the Department of Residential Life, 99 Grace King Hall, 225-578-8663 or on the Web site at www.lsu.edu/housing.
