Research Services (3) Prereq.: consent of instructor. Application of document analysis to produce MARC records, Dublin Core records, and SGML/XML tagging; overview of electronic publishing and use of Web publishing of archival materials and finding aids.

4760 Principles of Records Management (3) Application of systematic administrative tools to record information; life-cycle concept, legal requirements, and implications of technology, as well as records inventory, appraisal, classification, retention, and protection.

4765 Information Science (3) History and philosophy of information science and information retrieval; survey of current research.

4766 Abstracting and Indexing (3) Principles of abstracting and indexing for print and electronic environments; controlled vocabulary and thesaurus development; manual and computerized abstracting and indexing techniques; effectiveness of abstracting and indexing methods.

4770 Electronic Information Resources (3) Prereq.: LIS 7600 or permission of instructor. Use of electronic information resources and systems; analysis and comparison of various search mechanisms.

4788 Cataloging and Classification (3) Principles underlying description, subject analysis, classification of library resources and authority control; current national standard cataloging systems of Congress Subject Headings, Dewey Decimal Classification, Library of Congress Classification, and MARC (machine-readable cataloging) format; emphasis on bibliographic control.

4789 Seminar on Cataloging and Classification (3) Prereq.: LIS 7600 or consent of instructor. Detailed analysis of cataloging and classification of special resources, including serials, electronic and cartographic resources, kits, music, manuscripts, relia, including formatting of bibliography and preparing for survey of conceptual foundations of descriptive and subject metadata.

4790 Information Retrieval Systems (3) See CSC 7481.

4790 History of Books and Libraries (3) History and cultural relationships of the books and libraries; rise of the library as a formal institution within society.

4791 Seminar in History of Libraries and Record Keeping (3) Origins, organization, and development of records, record keeping systems, and archival institutions, from the ancient world through the twentieth century.

7702 Seminar in Advanced Archival Appraisal (3) Appraisal and selection of archival materials from both a theoretical and a practical perspective. Extensive reading in the archival literature, in form of familiarity with the evolution of appraisal theory and current practices in the field.

7703 Seminar in Advanced Archival Access (3) History of archival arrangement and description, in depth in the various search mechanisms. Preparation for course begins semester prior to registration. 120 hrs. per semester at field site. Experience in administration and management of health sciences libraries.

7709 MILIS Directed Independent Study (1-3) Prereq.: completion of 24 hrs. of LIS courses including LIS 7401, and permission of instructor. Preparation for course begins semester prior to registration. 120 hrs. per semester at field site. Experience in administration and management of special libraries.

7706 Field Experience in Health Sciences Information Centers (3) Prereq.: completion of 24 hrs. of LIS courses, including LIS 7401, and permission of instructor. Preparation for course begins semester prior to registration. 120 hrs. per semester at field site. Experience in administration and management of academic libraries.

7707 Field Experience in Public Libraries (3) Prereq.: completion of 24 hrs. of LIS courses, including LIS 7405, and permission of instructor. Preparation for course begins semester prior to registration. 120 hrs. per semester at field site. Experience in administration and management of public libraries.

7710 Special Topics in Archival Science (1-3) Prereq.: major or permission of instructor. May be taken for a max. of 6 sem. hrs. credit.

7711 Special Topics in Information Science (1-3) Prereq.: major or permission of instructor. May be taken for a max. of 6 sem. hrs. credit.

7712 Special Topics in Library Science (1-3) Prereq.: major or permission of instructor. May be taken for a max. of 6 sem. hrs. credit.

7713 Field Experience in Archives (3) Prereq.: completion of 24 hrs. of LIS courses including LIS 7603, and permission of instructor. Preparation for course begins semester prior to registration. 120 hrs. per semester at field site. Experience in administration and management of archives.

7714 CLIS Directed Independent Study (1-3) Prereq.: major or permission of instructor. May be taken for a max. of 12 sem. hrs. credit.

8000 Thesis Research (1-9 per semester) “S”/“U” grading.

4714 Phonology (3) See ENGL 4714.

4715 Semantics (3) See ENGL 4715.

4716 Introduction to Sociolinguistics (3) See ENGL 4716.

4710 Independent Research in Speech Science or Linguistics (1-3) See COMD 4710.

4714 Philosophy of Language (3) See PHIL 4914.

7660 Conversation and Discourse (3) See ANTH 7070.

7711 Seminar in Historical Linguistics (3) See ENGL 7711.

7713 Topics in Syntax and Semantics (3) See ENGL 7713.

7714 Topics in Sociolinguistics (3) See ENGL 7714.

7715 Topics in Language Acquisition (3) See ENGL 7715.

7750 Special Topics in Linguistics (3) See COMD 7750.

7752 Seminar in Linguistics (3) See COMD 7752.

7754 Psycholinguistics: Linguistic Perspectives (3) See COMD 7754 and PSYC 7754.

7755 English for Speakers of Other Languages: Methods and Materials (3) See COMD 7755.

7909 Independent Research: Phonetics and Linguistics (1-3) See COMD 7756.

7909 Selected Topics in Anthropology (3) See ANTH 7909.

7910 Seminar (3) See PHIL 7910.

7912 Field Methods in Linguistics (3) See ANTH 7962.

7999 Research in Anthropology (1-6) See ANTH 7999.

4790 Dissertation Research (1-12 per sem.) “S”/“U” grading.

LOUISIANA STATE UNIVERSITY • LSU

3200 Freshman Seminar (1) Open to freshmen only. Integration into the academic life of the campus, including orientation to the University's policies and resources, its history; and traditions; development of essential academic skills, personal growth/self-expansion, and exploration; instill a sense of community on campus and beyond.

MANAGEMENT • MGT

2000 Innovation and Creativity (3) Prereq.: Admission to the College of Business Administration or permission of instructor. Concentration or permission of instructor. The course focuses on the role of creativity and innovation in product, service, or idea generation that may eventually lead to business formation and commercialization; barriers to creativity and innovation; alternative problem-solving approaches.

2000 Petroleum Land Management Practice (1) V Open only to petroleum land management majors. Required of petroleum land management majors: waived only by consent of department. Pass-fail grading. A minimum of 6 weeks of full-time employment by a firm participating in the program.

3001 Petroleum Land Management (3) V Practical and evidentiary aspects of petroleum land management; principles, and techniques derived from a synthesis of legal and geographical sciences; legal effects of various procedures of boundary locations for petroleum properties; petroleum land practices concerning the associations, and environmental impacts of drilling activity; use of topographic and historic maps, map compilations, historical cartography, air photos, archival records, and field techniques; some focus on coastal Louisiana and the Gulf South.

3010 Family Business Management (3) Prereq.: ACCT 2001 and 2101; ECON 2000, 2010; ISDS 1100 or 1101 or 1102; MKT 3401. Family business culture: entrepreneurial influences; key issues and conflicts; career planning; counseling and consulting; professional support relationships; survival skills as a son or daughter in a family business.

3111 Entrepreneurship (3) Prereq.: ISDS 2000, FIN 3717 or 3716, MKT 3401 (credit or concurrent enrollment) or permission of instructor. Principles of entrepreneurship: feasibility studies; financial and location analysis; marketing; promotion; management; venture capitalism; legal considerations.

3151 Financing and Legal Aspects of Entrepreneurship (3) See FIN 3115.

3200 Principles of Management (3) Management functions, including planning, organizing, staffing/human resource management, leading/interpersonal influence, and controlling in both domestic and international arenas.

3203 Independent Study: Advanced Management Topics (1-6) Prereq.: consent of instructor. May be taken for a max. of 6 sem. hrs. of credit. Independent research under the direction of a faculty member.

3211 Business and Society (3) Prereq.: senior standing. 

9760 History of the German Language (3) Prereq.: PHIL 4011. See PHIL 4012.

4060 Language and Culture (3) See ANTH 4060.

4064 Pilgud and Creole Languages (3) See ANTH 4064 and FREN 4064.

4150 Phonetics (4) See COMD 4150.

4153 Acoustics of Speech and Hearing (3) See COMD 4153.

4160 Introduction to Russian Linguistics (3) See RUSS 4160.

4710 Introduction to Linguistics (3) See ENGL 4710.

4711 History of the English Language (3) See ENGL 4711.

4712 Roots of English (3) See ENGL 4712.

4713 Syntax (3) See ENGL 4713.
