Sequential process of policy making from problem identification through policy formulation, adoption, implementation, and evaluation of impact; application to such areas as civil rights, welfare, urban affairs, taxation, and government spending.

3897 HONORS: Thesis (3)
Culmination of political science honors program; details available from department.

3899 HONORS: Seminar (3)
Students not enrolled in the honors program may be admitted with consent of the instructor. Subject matter and instructor vary. Details available from the department during registration.

3990 HONORS: Seminar (3)
Applicable to co-op and intern education; no credit; same as POLI 4996, 4997; with special honors emphasis for qualified students. Credit will not be given for these courses and POLI 4996, 4997.
emphasis on experimentation, literature research, and writing. 2017 Research Methods, PSYC 2000, is also available speaking, writing, and reading skills. emphasis or equivalent of instructor.

*1101 Beginning Portuguese (4)
*2101 Intermediate Portuguese (4)
*2102 Intermediate Portuguese (4)
*2102 Intermediate Portuguese (4) (Prereg. PORT 2101 or equivalent). Continuing development of listening, speaking, writing, and reading skills.

PSYCHOLOGY • PSYC

General education courses are marked with stars (★).

★2000 Introduction to Psychology (3) An honors course, PSYC 2001, is also available. Credit will not be given for this course and PSYC 2001. Understanding, prediction, and control of human behavior.

★ 2001 HONORS: Introduction to Psychology (3) Same as PSYC 2000, with special honors emphasis for qualified students. Credit will not be given for this course and PSYC 2000.

2004 Psychology of Adjustment (3) Adjustment mechanisms in normal and abnormal behavior and major personality theories.

2017 Research Methods in Psychology (4) Prereg. EXST 2201 or equivalent. PSYC 2001 may not be taken concurrently with EXST 2201. 3 hrs. lecture; 2 hrs. lab. Se- nior college standing required. LSU and overall GPA of at least 2.50. Open to psychology majors; open to others with permission of instructor. Techniques and logic underlying standard research methodology in psychology, with special emphasis on experimentation, literature research, and writing empirical reports.

2040 Social Psychology (3) Prereg. 3 sem. hrs. of psy- chology or sociology. Cultural forces affecting attitudes, social learning, perception, and communication of individuals and groups.

2060 Educational Psychology (3) Principles of learning, motivation, development, and evaluation as related to the educative process.

2076 Child Psychology (3) Prereg.: PSYC 2000 or 2060 or equivalent. Psychological and social development of the child.

2078 Adolescent Psychology (3) Prereg.: PSYC 2000 or 2060 or equivalent; and, Adolescents: their development in terms of psychological, social, and physical development.

2999 Undergraduate Practicum in Psychology (1-3) Prereg.: PSYC 2000 or 2060; and, consent of instructor; LSU and overall GPA of at least 2.50. May be taken for a max. of 3 sem. hrs. of credit. Student responsible for registering with a faculty member. Individually supervised experience in psychological laboratories and community agencies.

3018 Advanced Experimental Psychology (3) Prereg.: PSYC 2017 or equivalent. 2 hrs. lecture; 2 hrs. lab. Super- vised research in general experimental psychology; selection, design, execution, analysis, and reporting of the psy- chological experiment.

3020 Psychological Tests and Measurements (3) Prereg.: PSYC 2000 or 2001 and a first course in statistics. Test construction, standardization, validation; intelligence, clerical, mechanical, and aptitude tests; interest and personality tests; test batteries.

3030 Cognitive Psychology (3) Prereg.: PSYC 2000 or 2001. A survey of the psychological study of human understanding cognition. Topics include the processes and brain mechanisms involved in perception and attention, memory, creativity, problem solving, reasoning, reasoning, and decision making.

3050 Introduction to Personnel and Industrial Psychology (3) Prereg.: PSYC 2000 or equivalent. Organizational psychology, leadership, job satisfaction, motivation; human relations psychology; human engineering psychology; personnel psychology; industrial, military, and governmental selection, testing, and interviewing; consumer psychology.

3081 Personality (3) Prereg.: PSYC 2000 or 2060 or equivalent. Determinants and dynamics of personality; theory and research.

3082 Introduction to Abnormal Psychology (3) Prereg.: PSYC 2000 or 2060 or equivalent. Abnormal personality and behavior disorders.

3083 Psychological Counseling (5) Prereg.: PSYC 2000 or 2060, and 3050 or equivalent. Concepts of psychological treatment in adjustment problems.

3140 Advanced Social Psychology (3) Prereg.: PSYC 2000 or equivalent. Current theories of socialization; existing methodologies and interdisciplin ary influences.

3201 Psychological Theories of Religion (3) See REL 2201. Prereg.: PSYC 2000 or 2001 and 6 additional hrs. of psychology; LSU and overall GPA of at least 2.50. Open to psychology majors; open to other matriculated students. Student responsible for registering with a faculty member and selecting an area of reading or research.

3417 Intermediate Research Methods (3) See SOC. 4211.

4030 Psychology of Thinking and Decision Making (3) Prereg.: PSYC 2000 or 2060. Experimental methods and research findings on human thinking, decision making, comprehension, choice behavior, and problem solving.

4031 Sensory and Perceptual Processes (3) Prereg.: PSYC 2000 and 2017; or equivalent. Theories, data, and procedures in sensation and perception.

4032 Psychology of Learning (3) Prereg.: PSYC 2000 or 2060. Behavior from the standpoint of learning; recent experimental literature in the learning area; major theories of learning.

4033 Psychology of Memory and Forgetting (3) Prereg.: PSYC 2000 or 2001. Major theoretical concepts; review of experimental literature in the field of memory and forgetting.

4034 Physiology of the Nervous System (3) Prereg.: PSYC 2000 or 2060; or equivalent. Functioning of the nervous system with respect to sensation, perception, learning, and motivation.

4035 Drugs, the Nervous System, and Behavior (3) Prereg.: PSYC 2000 or 2060; or consent of instructor. Modes of action of drugs on the brain, and behavioral effects of therapeutic drugs and drugs of abuse.

4036 Comparative Psychology (3) Prereg.: PSYC 2000 or 2060. Behavioral development across species with reference to evolutionary and conceptual understanding of human behavior.

4037 Neuropsychopharmacology (3) Prereg.: PSYC 2000 or 2001. Primarily for students majoring in basic psychology; neurochemical and physiological mechanisms of drug actions on the nervous system; pharmacology of drugs of abuse and psychiatric medications.

4038 Emotion and Motivation (3) Prereg.: PSYC 2000 or equivalent. Experimental procedures, data, and theories in emotion and motivation; psychological selection, validation; intelligence, clerical, mechanical, spatial aptitude tests; interest and personality tests; test batteries.

4039 Madness and Medicine (3) Prereg.: PSYC 2000 or 2001. The history of medical treatments for mental disorders and the impact of medical treatments for mental disorders.

4040 Research and Theory in Sexuality (3) Prereg.: PSYC 2000 or 2001 and one additional course in psychology; or KIV 2000. Survey of research from different theoretical perspectives; emphasis on empirical sexual research literature.

4050 Advanced Industrial/Organizational Psychology (3) Prereg.: PSYC 2000 or 2050 and equivalent. Research, theory, and applications in industrial/organizational psy- chology; focus on psychological assessment of job candi- dates; testing; learning applied to organizational training: emotion, motivation, social processes, cognition in the job setting and leadership.

4070 Developmental Psychology (3) Prereg.: PSYC 2000 or 2001. Theories of development, contemporary issues, and research findings at successive ages of human development; psychological changes throughout the lifespan.

4072 Developmental Psychology of Adulthood and Aging (3) Prereg.: PSYC 2000 or equivalent. Issues, issues, and research findings on psychological changes occurring throughout adulthood and later life.

4080 Behavior Analysis (3) Prereg.: PSYC 2000. Methods, analysis, and intervention in the application of basic learning principles; emphasis on school applications.

4110 Intermediate Statistics (3) Prereg.: PSYC 2000 or 2001 and EXST 2201 or equivalent. LSU and overall GPA of at least 2.50. Preparatory for graduate study in statistics and research design in psychology; time to psychology majors; open to other students with permission of instructor. Emphasis on inferential statistics and hypothesis testing; familiarity with common statistical analysis software and interpretation of output; major topics include simple and factorial analysis of variance, linear and multiple correlation and regression.

4160 Advanced Educational Psychology (3) Prereg.: PSYC 2000 or 2001 and 3 additional hrs. of psychology. Psychological theory and research as applied to the teaching-learning process.

4176 Advanced Child Psychology (3) Prereg.: PSYC 2000 or 2001 and 3 additional hrs. of psychology. Psychological theories of child development, child behavior, and research methodology.

4178 Advanced Adolescent Psychology (3) Prereg.: PSYC 2000 or 2001 and 3 additional hrs. of psychology. Psychological theories of adolescent behavior and problems.

4999 Independent Reading and Research in Psychology (1-6) Prereg.: LSU and overall GPA of at least 2.50 and consent of instructor. May be taken for a max. of 6 sem. hrs. of credit. Open to seniors and graduate students. Student responsible for registering with a faculty member and selecting an area of reading or research.

7020 Measurement of Behavior (3) Prereg.: PSYC 4111 or equivalent; graduate standing in psychology or consent of instructor. Techniques and methods of behavior measurement; problems of data collection; reliability, validity, design, and analysis of measurement instruments for the psychological sciences.

7030 Cognitive Basis of Behavior (3) Prereg.: graduate standing in psychology or other matriculated graduate students with consent of instructor. Cognitive processes involved in memory, language, decision making; role of cognitive variables in controlling behavior.

7034 Biological Basis of Behavior (3) Prereg.: graduate standing in psychology or other matriculated graduate students with consent of instructor. Selected biological systems involved in mediation of behavior, and overall gpa of at least 2.50. Open to psychology majors; open to others with permission of instructor. Emphasis on the psychological assessment of job candidates; testing; learning applied to organizational training: emotion, motivation, social processes, cognition in the job setting and leadership.

7111 Advanced Statistics (3) Prereg.: PSYC 4111 or equivalent; graduate standing in psychology or consent of instructor. Machine calculations, multiple correlation and regression, emphasis on inferential statistics and hypothesis testing; familiarity with common statistical analysis software and interpretation of output; major topics include simple and factorial analysis of variance, linear and multiple correlation and regression.
