

Teachers Workshop at Bossier Parish Community College

Hosted by: Consortium for Innovation in Manufacturing and Materials

The Consortium for Innovation in Manufacturing and Materials (CIMM) Research Experience for Teachers (RET) is a four-day training workshop on the software Solidworks at Louisiana State University. Participants are immersed in a project-based learning environment aligned with advanced manufacturing. Participants will learn how to navigate Solidworks and design a print-ready 3D model.

QUALIFICATIONS

- U.S. citizen/permanent resident
- Faculty at a two-year college
- Desire to incorporate workshop information into future course work at home campus

We especially seek applications from women and groups traditionally underrepresented in STEM disciplines.

BENEFITS

- \$700 stipend
- Up to \$300 travel expense reimbursement
- Hotel expenses paid

IMPORTANT DATES

Application Deadline:
May 31, 2018
