

Capital Area United Way

## Prescription Card Information

Capital Area United Way has partnered with the UNA Rx Card in an effort to help make prescription drugs more affordable to all members of our community. The prescription card is a tool to help people save on their prescriptions whether they have insurance, no insurance, or Medicare.

**IT'S FREE:** Capital Area United Way is distributing the prescription cards to all members of the community at no charge. You do not have to purchase the card. It is free.

**HOW DOES IT WORK?** Simply present your card and prescription to a participating pharmacy to find out if you can obtain a discounted price on your prescription (pharmacies located on back of card). If you have health insurance, a pharmacist will determine whether you will get a higher discount from your insurance or by using the free prescription card. The pharmacist may ask you for your ID#. This can be your phone number or any ten digit number. The cards are pre-activated and require no registration.

**HOW MUCH YOU SAVE:** This card can save you and your family an average of 32%. Discounts on generic drugs can range from 10-75% and name brands 5-50%. Not all prescriptions will be covered all of the time. Please show your card for every prescription that you fill.

**NO RESTRICTIONS:** Use your card as often as you need. There are no fees, enrollment forms, age or income requirements, waiting periods, health questions or participation requirements.

**BENEFITS TO THE COMMUNITY:** Capital Area United Way will receive a \$1 contribution every time the card is accepted. This donation is made possible by the participation of numerous pharmaceutical companies nationwide.

### **OTHER INFORMATION:**

- The free drug cards are really 100% free, there are no strings attached
- This is a discount prescription card program – not insurance. There are no premiums or co-payments to be paid.
- The free drug card discount card program is funded through the participation of numerous pharmacies and pharmaceutical manufacturers nationwide
- The free drug cards will work at most pharmacies nationwide
