

LSU

Agricultural Education

The agricultural education concentration prepares students to be certified agricultural instructors in the state of Louisiana. Students who complete this program of study will have a broad base of technical knowledge and skills in the dynamic field of agriculture.

Students will also have learned practical teaching methods to facilitate the process of planning, organizing and presenting agricultural information and promote optimal student learning.

Specifically, students in this concentration will be able to:

- Teach for development of agricultural knowledge and skills using a variety of teaching methods
- Develop a classroom management plan that supports successful learning
- Advise an FFA chapter
- Supervise students' agricultural experience programs
- Develop and teach an agricultural curriculum that corresponds with the Educational Framework for Louisiana's Agriscience/Agribusiness/FFA Program
- Teach students in both formal and informal educational settings
- Build parent, school and community support for an educational program
- Acquire a broad base of technical knowledge and skills in agriculture.

LSU

Collegiate FFA at LSU promotes public awareness of agriculture across the state of Louisiana. Members are provided opportunities for leadership development, community service and recreation.

The agricultural education program at LSU is a product of an agricultural education family which includes the School of Human Resource Education & Workforce Development, the College of Agriculture, and the state FFA office.

In Louisiana, there is high demand for students with a degree concentration in agricultural education as current agriculture teachers retire and new programs begin. If you are interested in helping young people succeed in agriculture, this program is for you!

To learn more about the agricultural education program at Louisiana State University, please visit our Web site at <http://www.lsu.edu/hrleader/aeeyd>.

To receive more information about agricultural education in the School of Human Resource Education & Workforce Development, please contact Dr. Curt Friedel at cfriedel@lsu.edu, or call (225) 578-2108.
