OBJECTIVE: Poli Sci 2057 is a general education requirement course for social science undergraduates. The course is designed to provide students with an introductory insight into the process, the progress and the problems in the conduct of the world politics. In particular, we will discuss the flow of change and continuity as well as the twists of conflict and cooperation in World Affairs. By the end of the semester, it is expected that students should have been educated in the knowledge of global interaction to the extent that they can explain and analyze events and trends in the contemporary world.

The University strives toward Learning Competency and the fulfillment of the following objectives:
- Ability to think, describe, interpret and analyze the world
- Facility to make sense of the world that impact on our own local system
- The need to gain critical perspectives of the governments and institutions across various political systems

TEXTBOOKS: Scott, Carter and Drury: International Relations
Boston: Cengage Learning, 2016

In addition, New York Times readings will be assigned.

EXAMS & PAPERS: As part of the general education requirement, (all sections of 2057) will do standard multiple choice questions during the midterm and final. There will be other multiple choice questions assigned from the NYT. A major essay question will also be administered to all 2057 sections. Much of the content of the midterm and final exam (essays and definitions) come from the lectures. You will select an on-going topic in the news and examine key issues and themes generated from it in your research paper topic.
