Please note:

- The trainer encourages everyone to bring examples of their most problematic partnerships with them to the workshop and biggest student misconceptions about substance use on their campus. The goal will be to collectively define new strategies for implementation that will aid in the reduction of substance abuse on campuses and the surrounding communities.

- At the workshop, the LaCASU Office will provide participants from each school with a copy of the Executive Summary from the 2011 Core Alcohol Survey for their institution, for use in identifying key problem areas.
