Organic Cume on 10/21/2017.
(Professor Evgueni Nesterov, 449 Chemistry & Materials Building, Tel. 8-3236, e-mail: een@lsu.edu)

**Topic:** Organic Reactions and Mechanisms.

This cume will cover broad spectrum of fundamental organic reactions, typical arrow-pushing mechanisms, and syntheses of organic compounds.

**Literature:**

3) Any other organic chemistry textbook.

**Note:** Adequate preparedness assumes basic understanding of typical undergraduate-level two-semester organic chemistry. The exam will be closed book – closed note type.
