Contributions by our alumni and friends have been a key factor in providing support for the college’s brightest students. The College of Science has been especially active in the area of financial aid, with the help of Alumni and Development. Gifts of $1,000 or more qualify for membership in the Dean’s Circle. These funds provide the necessary support for academic programs and research activities.

The College of Science is committed to producing some of the nation’s finest entrepreneurs. The LSU College of Science has a long history of producing successful entrepreneurs, with alumni such as John Berkenpas, founder of Berkenpas Consulting, and Mary Lou Martini, founder of Martini & Martini.

In 2013, the College of Science launched the LSU Alumni Entrepreneur of the Year Award. The award recognizes an alumnus or alumna who has achieved success in their entrepreneurial ventures. The first recipient of the award was Louis Ting, founder of Ting.com.

The College of Science has also been active in the area of outreach and public engagement. The LSU College of Science has a strong commitment to community outreach and public engagement. The college has a number of programs and initiatives aimed at increasing public awareness and understanding of science and technology.

The College of Science has a long history of collaboration with industry, government, and educational institutions. The college has been involved in a number of projects and initiatives aimed at increasing the number of scientists and engineers in the workforce.

The College of Science has a strong commitment to diversity and inclusion. The college has a number of programs and initiatives aimed at increasing the number of underrepresented minorities in science and technology.
