Housing, Meals, and Transportation
Interns are responsible for their housing, meals, and local transportation. Housing is available at the University of Washington for approximately $2,000 for the duration of the program. Interns are eligible to purchase a subsidized transportation pass for $45. There is a free shuttle between the Fred Hutch and University of Washington campus that departs every 15 minutes.

If you have any additional questions about the Summer Undergraduate Research Program that are not addressed in the Frequently Asked Questions section of the SURP website [http://www.fredhutch.org/en/education-training/undergraduate-students.html], please send an email to: SURP@fredhutch.org.

About the Fred Hutch
The Fred Hutchinson Cancer Research Center is a world-renowned nonprofit research institution working to improve the prevention, detection and treatment of cancer, HIV, and many other diseases. To learn more about the Fred Hutch, visit: www.fredhutch.org/en/about.html.

How to Apply

The application deadline is Friday, January 15, 2016. Letters of recommendation for up to two references are due by Friday, January 22, 2016. Notification of acceptance will occur in mid-to late-February.

Housing, Meals, and Transportation
Interns are responsible for their housing, meals, and local transportation. Housing is available at the University of Washington for approximately $2,000 for the duration of the program. Interns are eligible to purchase a subsidized transportation pass for $45. There is a free shuttle between the Fred Hutch and University of Washington campus that departs every 15 minutes.

Being at the Hutch for a summer really helped me understand both the cleverness and hard work that it takes to become a successful researcher. I flew back from Seattle inspired to pursue a graduate career in biological science and can gladly say that I've made that a reality at Stanford.

~SURP Intern

Other Cancer Research Internship Opportunities
A catalog of internships for high school, undergraduate, post-baccalaureate, and graduate students offered nationwide can be accessed at: http://www.fredhutch.org/content/dam/public/education/internships.pdf

The Summer Undergraduate Research Program is supported in part by the Cancer Center Support Grant (CCSG) CURE Supplement: 5 P30 CA015704-40S2, U54 CA132381 (FHCRC) and U54 CA132383 (NMSU).

**About the Summer Undergraduate Research Program**

The Summer Undergraduate Research Program at the Fred Hutchinson Cancer Research Center (Fred Hutch) is an intensive, nine-week internship designed to provide research experience and mentorship for undergraduate students who are interested in biomedical research. Under the guidance of a faculty mentor, students will complete an independent research project and present their findings at a competitive poster session.

The program runs from **Monday, June 13** through **Friday, August 12, 2016**. Students must be able to commit to this entire period in order to participate.

**Areas of Research**

Interns will be paired with a faculty mentor after selecting one of the following areas of interest:

- **Basic Science**: Conducts fundamental research in structural, genetic, molecular, cellular, developmental and evolutionary biology;
- **Human Biology**: Interdisciplinary research; conducts lab-based and computational research at the interface of basic, clinical, and population sciences;
- **Public Health**: Uses large populations as a "laboratory" to look for links between cancer and its possible triggers, from diet and lifestyle to environmental and genetic factors. Conducts statistical, epidemiological and prevention studies around the world;
- **Clinical Research**: Works to develop and analyze new treatments for cancers and other diseases; and
- **Vaccine and Infectious Disease**: Integrates computational, laboratory and clinical research methods to advance the understanding of microbial pathogenesis and infectious disease processes.

To learn more about the specific research interests of Fred Hutch faculty, please visit: [http://www.fredhutch.org/en/labs.html](http://www.fredhutch.org/en/labs.html).

**Program Components**

In addition to completing a mentored research project, interns will participate in professional development workshops designed to facilitate the preparation of competitive applications for graduate or medical school. Workshops include:

- Preparing a personal statement, resume, and abstract;
- How to successfully apply to graduate or medical school; and
- Preparing and presenting a scientific poster.

Interns will also attend weekly research seminars regarding a broad array of scientific topics. The program culminates with a competitive poster session. The program also sponsors a number of social activities to foster interaction among interns and their mentors. Activities may include:

- Attending a Seattle Mariners MLB game OR Seattle Sounders FC match;
- Riding the Seattle Great Wheel OR touring the Theo Chocolate Factory;
- Taking a ferry to scenic Bainbridge Island; and/or
- Hiking the trails on Mount Rainier.

**Eligibility Requirements**

- U.S. citizen or permanent resident currently enrolled in a U.S. university or college;
- Entering the summer before the FINAL year (or semester or quarter) of undergraduate studies; and
- Strong background in the sciences or related areas of interest.

**Compensation**

Interns will receive $4,794 (minus taxes) for their participation in the Summer Undergraduate Research Program.

**Travel**

Roundtrip travel costs (up to $450) are provided. Travel arrangements will be coordinated by program staff unless otherwise requested.
