First-year students in Engineering and Science using **CAS tutoring 4 or more times were 24% more likely to persist** at LSU.

Without the Tutoring Center I have no idea what my GPA would have been like. The tutors are amazing and have helped me exponentially. - **Freshman**

Students who attend three or more SI sessions **typically earn a 0.5 letter grade higher than students who do not attend**, and can be retained at up to 24% higher rates than students who don’t attend.

- The average increase in mean grade for students attending SI in Inorganic and Organic Chemistry courses is **+0.64**.
- Students who attend SI earn **12% fewer D’s, F’s, and W’s** per course.

The tutors took an interest in me as a person and became mentors throughout the semester. They helped me learn, and when I succeeded, they were excited for me. - **Freshman**

**FACTS**

- CAS served approximately half of the LSU student population.
- Students required to attend the **IMPACT workshop have a 0.50 higher GPA and persist at an average of 20% higher**.

I attended the workshop because I felt it would better my study habits and help me become a better student. - **Senior**
