2023 W-2’s Delivered Through Workday
The 2023 W-2 forms are delivered electronically through Workday for all current employees who have access to a Workday account. Paper copies of W-2’s are generated for current employees who do not have access to a Workday account and for terminated or retired employees. The electronic W-2 forms will be available on or before January 31. Paper copies for terminated and retired employees or employees with no access will be mailed directly to the employee by January 31. The W-2 will be located under the Pay Worklet in Workday under My Tax Documents.

Insurance
It is important for employees to review their pay slips to ensure the coverage options elected during Annual Enrollment are reflected. If there is a discrepancy, it should be reported to Human Resources (HR). Employees should also report to HR if they have not received ID cards for newly elected coverage. This will ensure benefits are available when needed.

INFORMATION TECHNOLOGY SERVICES

Identity and Access Management Modernization
LSU is currently embarking on the modernization of several legacy applications and infrastructure including the student information system and identity and access management system.

Identity and Access Management (IAM) is a vitally important combination of processes, policies and technology that aims to enable individuals to access required digital and/or network resources while simultaneously preventing unauthorized access. IAM impacts everyone and enables individuals to access the correct resources at the correct time for the correct reasons. IAM Services provide person and identity accounts, identity lifecycle management (including account creation and removal), authentication, and authorization.

It resides within the realm of IT Security and plays a major role in securing University data, applications, and IT assets.

Additional communication will be provided via email in the coming weeks outlining a timeline of activities and their impact on university functions.

If you have any questions or concerns, please contact the IT Security and Policy team at iam@lsu.edu.
