LSU produces highly capable students that are ready to enter the workplace of any discipline. The combination of professional experiences, academic pursuits, and involvement opportunities on and off campus produce graduates that are: Ready to Roar.

Developed by the National Association of Colleges and Employers (NACE), the Career Readiness Competencies are the foundation that employers identify when evaluating whether students will be successful in the workplace.

LSU’s general education program, Integrative Learning Core (ILC), adopted a set of proficiencies for students to develop, across the undergraduate curriculum, that will help students succeed after college in pursuing additional educational opportunities as well as beginning a career.

In the 153 hours outside of the classroom, our students are participating in experiences that intentionally develop vital skills. These Co-Curricular Competencies ensure that our students are prepared to be well-rounded individuals upon graduation.
