

# Semester Calendar

Use the free CAS Semester Calendar to form a big picture. This calendar has all the important dates you need for effective planning (e.g. holiday drop/add dates and exams, etc.)

1. At the beginning of the semester, write down each exam, quiz, project, and paper due from your class syllabi.

2. Add in social, family, and commitments.

3. Color code important items such as exams, or organize events by type by color.

4. Post the calendar in an area where you can view it regularly.

You can also create a weekly calendar that shows more detail. It is the perfect way to schedule your focused study sessions, group work, and organization time.

| AUGUST | Monday                 | Tuesday  | Wednesday                                   | Thursday              | Friday             | Sat                  | Sun                 |
|--------|------------------------|--|---|-----------------------|--------------------|----------------------|---------------------|
|        | 26                     | 27   | 28  | 29                    | 30                 | 31                   | 1<br>Family Reunion |
|        | 2<br>Labor Day Holiday | 3<br>Final day for dropping classes, receiving W | 4<br>Final date for adding courses, changes | 5                     | 6                  | 7                    | 8                   |
