In an effort to develop our students into successful professionals, we have designed our program to require students to gain real-world experience in the human resources field. Therefore, students must acquire and complete an internship during their graduating semester of their senior year at LSU.

We are always developing new partnerships with local companies, and connecting our students with them. We want to provide our students with the best opportunities available and offer you high-quality, entry-level interns and employees.

As seniors in our Leadership & Human Resources Development program, our students have been trained in the areas of organizational development, performance analysis, change management, and the development of human capital.

In this partnership, we provide you with a graduating senior as an intern in the spring, summer, or fall. We would love to partner with you to educate ur students while supporting your company.
