

## Policy on Teaching Core Courses

1. The core courses form the foundation of the students' educational experience and prepare them for further advanced study. In order to assure a consistent level of quality, core courses will be taught by tenure-track faculty only.
2. Exceptions to this policy may be made under extraordinary circumstance with a majority vote of the full faculty. Such exceptions should be the last resort, in circumstances when cancelling/not scheduling the course is not possible.

Approved by the Policy Committee September 19, 2014.
