S.T.E.P. thru S.T.E.M.
Secondary Teacher Education Preparation thru Science, Technology, Engineering, and Mathematics
(Secondary Education Concentration)

Program Highlights

- You can earn degrees in Math, Biology, Chemistry, or Physics while earning certification to teach those subjects in middle or high school.

- It’s only a 128 hour program and the credit hours already earned are easily transferable.

- There are Forty $500 and six $7500 scholarships available annually.

- Upon degree completion, participants will be ready for graduate school, or professional employment including teaching among other countless options.

- Take only 4 education courses (ideally one per semester) and complete student teaching.
