A LOT OF THE MOST IMPORTANT COLLEGE EXPERIENCES HAPPEN OUTSIDE THE CLASSROOM
SUCCESSFUL COLLEGE STUDENTS FIGURE THINGS OUT ON THEIR OWN AND RARELY NEED TO ASK FOR HELP

“Getting involved with STRIPES really helped me transition into LSU. It gave me friends, and has helped my so much with figuring out what I wanted to do in life.”

“The T3 program really helped me personally in my transition here at LSU. I came in thinking I'd be at a disadvantage to the others, but my mentor and the other people in T3 were there to address literally any concern I had in my first semester, whether it was academic or more personal. Knowing that you can ask someone about anything you may be confused over and not be judged is really reassuring.”

“Participating in Bengal Bound helped me meet new people and explore areas of campus that I otherwise wouldn’t have know about – especially as an out of state student.”
