Notable LSU Achievements in Your Region

- The LSU AgCenter’s Southeast Research Station—a state-of-the-art dairy operation with the latest in time-saving and cost-saving equipment—is at the center of the dairy-producing region of both Louisiana and Mississippi and, through a Memorandum of Understanding, serves both states.
- Located in Washington Parish, LSU’s Lee Memorial Forest consists of over 1,200 acres of managed timberland and is a vital research and teaching resource for the LSU AgCenter.
- The LSU AgCenter’s Hammond Research Station focuses on the nursery industry and is home to the Louisiana Super Plants Program, which studies plants that thrive in certain parts of Louisiana.
- LSU faculty from various fields are testing new, low-cost residential construction materials to protect the homes of low-income families in hurricane-prone coastal areas.
- Using advanced methods, LSU predicts how relative sea level rise, tides, wind waves, and hurricane storm surge affect flood maps and insurance rates and coastal development.
- LSU Health Sciences Centers rank No. 5 nationally for keeping Louisiana students in state for medical studies and keeping physicians in Louisiana upon graduation.
- LSUHSC-NO houses Louisiana’s oldest and largest medical school and only dental school as well as the No. 4 nursing school in the nation.
- The Shell Youth Wetland Education Program (SWYEP) began in 2010 as a partnership with Louisiana Sea Grant, 4-H Youth Wetland Program, and Shell Robert Training Facility to teach Tangipahoa Parish youth about wetlands associated with plants, animals, and habitat importance. A total of 450 youth and 75 adults have participated in this event.
