LSU’s Pre-Scholars Academy

The Pre-Scholars Academy is an exclusive program established specifically to provide access and support to higher education for students who demonstrate a high potential for success. The chosen candidate would work with the students after the program ends throughout the school year.

Main responsibilities include

- Conducting individual meetings to track students’ academic progress
- Coordinate group meetings
- Equip students with resources, guidance, and connections that help facilitate their successful transition to LSU.

The Pre-Scholars Academy begins on July 21. Ideally, the chosen candidate would start in early July to work with me to prepare for the program, and would work as a member of the peer staff during the program (in residence from July 21-August 16).

Hourly wage for the limited summer hours, a stipend for the duration of the program, and the regular GA stipend during the year are potentially available.

This person would support the overall mission and vision of Enrollment Management, and assist with departmental programming as needed.

Interested applicants should submit a cover letter of interest and resume to me at hubbard@lsu.edu.
