Insurance Definitions

Health Insurance shouldn’t be complicated. Here are some ‘health insurance’ terms that you should be aware of. If you have any questions or want more clarity, please contact us.

**Deductible** - Is the amount you must pay before the insurance company will start paying on certain services

**Out of Pocket Maximum (OOPM)** - The maximum amount you are responsible for, once you meet your OOPM the insurance will pay at 100% (exclusions may apply)

**Co-payment/coinsurance** - Copayment is a dollar amount and coinsurance is a percentage you will be responsible to pay

**Provider Network** - The Provider Network is doctors and/or facilities that are contracted with United and offer care at a lower out-of-pocket cost

**Network:** United Healthcare Choice Plus PPO
Network & Payment for Services

Using In-Network Providers

- When you go to a participating provider (in-network), you pay less and there is no paperwork. The provider will file the claim with United Health Care Student Resources (UHCSR). If you go to an out-of-network provider, you may be responsible to make payment in full and submit a claim to UHCSR for reimbursement, which is typically more costly to you than in-network providers.
Network & Payment for Services

Explanation of Benefits (EOB)

• Once the claim is processed by UHCSR, you will receive an Explanation of Benefits (EOB) Statement showing how payment was made and what amount, if any, you are responsible to pay.

• You should receive a bill from the provider showing the amount the insurance paid and what amount you are responsible for. Match the bill with the EOB to ensure that you pay the correct amount.
