

**Protect yourself from the unexpected cost of an accident.**

Even with health insurance, an accidental injury can cost you thousands of dollars. Lost wages from missing work, health insurance deductibles and daily living expenses can create long-term financial problems. Accident insurance helps cover the added costs that you may face following an injury.

## Accident protection supports your health plan.

If you have a covered injury during the plan year and you submit a claim, the Accident Protection Plan will pay you a cash benefit directly. Any payment you receive is in addition to the benefits your health plan gives you. With the accident plan, you don't have to meet a deductible to receive the money. And you can use the money any way you want.

## The plan covers more than 80 injuries and services.

Here is a short list of injuries and services that may qualify for a benefit payment:

- |   |                                |
|---|--------------------------------|
| Ambulance services                                      | Burns                          |
| Emergency room and urgent care                          | Concussion                     |
| Doctor visits   | Fractures/dislocations         |
| Hospital admissions and stays                           | Lacerations (cuts)             |
| Medical appliances (e.g., crutches, wheelchair, walker) | Prescriptions                  |
| Rehabilitation  | Organized sports injuries      |
|   | Lodging, travel and child care |

THIS IS A LIMITED BENEFIT POLICY. This plan is not a health plan. This plan provides a limited benefit. Benefit payments are not intended to cover the full cost of care.
