1/1/2017 – 12/31/2022
(Chief Investigator - C) National Health Medical Research Council of the Australian Government:
Mapping the Specific Pathways to Early-onset Mental Health Disorders. Map the emergence of individual differences in social-responsiveness, emotional attention, and learning over the first three years of life to determine how they interact with the quality of environment/caregiver interactions to predict emergence of major forms of psychiatric illness. PI: Mark Dadds. Funds approved are \$1,287,730 AUD / \$957,460 USD in total costs.

- 1/1/2017 – 12/31/2022
(Chief Investigator – E) National Health Medical Research Council of the Australian Government: *An Integrated Model of Environmental, Neurodevelopmental, and Epigenetic Resistance and Responsiveness to Early Intervention in Childhood Psychopathology*. Test a theoretical model of how individual differences in a critical environmental, neurodevelopmental and epigenetic processes shape the early development of common mental health problems that applies to natural trajectories as well as responses (or resistance) to early intervention. PI: Mark Dadds. Funds approved are \$866,110 AUD / \$648,062 USD in total costs.
- 5/1/2018 – 4/30/2020
(Site Principal Investigator) W.T. Grant Foundation. *Crossroads: Reducing Inequality and Promoting Positive Youth Development through Understanding Juvenile Justice System Processing*. Funds to follow the Crossroads sample, a sample of first time juvenile offenders, through the end of high school as they enter college and the labor market. This study will test the educational and occupational benefits of diversion compared to formal processing as a lever of change for reducing disparities for youth of color. PI: Elizabeth Cauffman. Funds approved are \$598,937 in total costs.
- 8/16/15 – 6/30/19
(Site Principal Investigator) MacArthur Foundation: Models for Change in Juvenile Justice Research Network: *Extending the Crossroads Project*. The subcontract to Louisiana State University extends a longitudinal study of 1,200 younger male juvenile offenders (ages 12-16) that examines different degrees of justice system involvement following an arrest at three sites (Santa Anna, CA, Philadelphia, PA, and Jefferson Parish, LA) and how this involvement influences youths' development across adolescence. PI: Elizabeth Cauffman. Funds approved are \$140,039 in total costs.
- 1/01/2016 – 12/31/2018
(External Investigator) Spanish Ministry of Economy and Competitiveness: *Utilidad clinica en ninos del especificador "Con Emociones Prosociales Limitadas" del trastorno de conducta: Evaluacion y correlators atencionales y emocionales*.
