Stipends & Scholarships

ASP Meeting
September 22, 2021

Presented by: Janet Parks
Stipend

• A set amount of money paid directly to the participant or fellow

• Granting agencies
  – Use the word “Stipend” many different ways
  – Some agencies have specific guidelines for participant stipends/fellows
How are Stipends paid to Students?

• Stipends for trainings, workshops, conferences & fellowships are paid through SAE (Student Award Entry system in mainframe)
  – Cash award given for participating in a training activity, workshop or conference, or support for a fellow
  – Student does not have a work component, no services are required of the student in order to receive the award
When to pay Stipends through Payroll?

• If there is a past, present or future work requirement, the stipend payment is taxable and must be paid as compensation through Payroll.

• If the participant support costs are awarded as a supplement to the PI’s research project – pay through Payroll. Examples:
  – NSF REU supplements
    • normally 1-2 students working on the parent research project
    • pay through Payroll
  – NSF REU sites
    • stand alone award
    • several students
    • pay through SAE
Research Subject Fees

• Sometimes budgeted as stipends
  – Not a stipend
• Fees (cash incentive) paid to participants for completing a survey or study
• Paid through AP using SC0086 Research Subject/Participant Fees
• Follows FASOP: AS-13 Cash Incentive Payments ($50 Or Less) To Participants In Sponsored Programs
Scholarship Costs

• Tuition & Fees
  – Does not normally include **required fees, health insurance**
    and **nonresident fees** therefore, these costs must be
    specifically listed in approved budget

• Subsistence (housing & meals)

• Textbooks

  ➢ **Paid through an exemption on scholarship grant (FN90)**
    – Not paid directly to the student
    – Loaded as an exemption on the student’s account using TRX code (exception – textbooks are paid through AP and reported to Financial Aid & Scholarships)
Non-Scholarship Costs

- Costs directly associated with attending conferences, symposia, or training programs
- Travel for project activity (includes field trips)
- Training materials and lab supplies

- Paid on non-scholarship grant (not FN90)
Scholarships

• Must be listed in the approved budget
• Must have established criteria
  – Standards that the recipient must meet to initially qualify for and continue to receive an award.
• Must use a selection committee
• Documentation must be kept in the departments
• TRX codes must be established
• Must be paid using FN90 grant
Transaction (TRX) Codes

• A TRX code ties a scholarship award to an account number (grant, program or gift)
• **AS498** form must be completed
• Used in the SAE system to disburse funds to a student
• Used in the ABS to load tuition exemptions. ABS is the student Award Billing System in mainframe.
