US universities

The 13<sup>th</sup> International Congress on Combustion By-Products and Their Health Effects is scheduled for May 15-18, 2013 at the Marriott at the Convention Center Hotel in New Orleans, LA. This international meeting will bring together academic, government, and industrial representatives to present research findings, update international policy, and discuss critical issues concerning emissions of toxic by-products from combustion processes. The meeting will begin with registration and a welcome reception on the evening of Wednesday, May 15th. There will be five half-day sessions (Thursday-Saturday morning), a poster session on Thursday evening. The conference will end at noon on Saturday the 18th. There will be 6 plenary sessions featuring invited talks by established leaders and junior investigators.

## Plenary Sessions will include:

- Respiratory health effects of combustion pollution
- Mechanisms linking combustion pollution and cardiovascular toxicity/dysfunction
- *In situ* burning to remediate the gulf oil spill
- Environmental sampling: advances, challenges, and implications
- *In vivo* and *in vitro* dosimetry: implications for respiratory toxicity testing
- Human clinical/toxicology studies and epidemiology

The meeting will be held in the Marriott at the Convention Center Hotel-New Orleans. A block of rooms has been reserved there for your convenience

- For reservations call 504.613.2888 and ask for the 2013 PIC Conference PPN74JZZHBF group rate
- The room rate is \$135.00 per night plus tax and will be offered 3 days pre and post event, based on availability
- Rooms must be reserved by on or before 5pm (CST), Friday, March 15, 2013
