I. PURPOSE

The purpose of this policy statement is to define the use of University funds for entertainment/special meals to ensure compliance with State and University regulations.

II. DEFINITION

“Entertainment” includes all food, refreshments, non-alcoholic beverages, admission charges, etc. provided to non-employees. Alcoholic beverages are prohibited. These regulations do not replace routine meal allowances provided to employees in travel status.

III. GENERAL POLICY

For entertainment/special meal expenses to be charged to departmental accounts, the operating procedures outlined in this policy statement must be followed. This policy statement applies to gifts, grants or contracts that include entertainment, unrestricted departmental accounts and restricted auxiliaries. Entertainment cannot be charged to federally funded projects, unless specifically outlined in the approved budget/budget justification and approved by the sponsor. Only catered events may be directly billed to the University; dine-in meals on campus and off campus must be paid with personal funds and reimbursed. There must be a “clearly defined business purpose” for the meal. Meals paid with personal funds eligible for reimbursement should be submitted using a Travel Expense Reimbursement Request (AS300), supported by an itemized restaurant receipt, and an approved special meal request (AS499/AS516-B) with a list of the attendees attached.

IV. OPERATING PROCEDURES

A. AS499: Request for Approval of Special Meal

Departments must complete an AS499 whenever food is to be provided at a university function, regardless of the account object code being charged (i.e. 3410, 4240) or whenever food items are purchased. The AS499 must be approved prior to the event/purchase. The completed AS499 should be forwarded to the Office of Accounting Services, where it will be reviewed for compliance and approved in accordance with PM-13, University Travel Regulations.

In no case will the University bear a “per person” cost in excess of the following amounts when providing one of the following meal types:
University employees should be included only to the extent that their official capacity would indicate their presence necessary. Expenses for employees’ spouses may not be reimbursed. Refreshments should be limited to university approved functions and multi-departmental meetings.

If the AS499 request is in compliance, the form will be approved by the Office of Accounting Services and returned to the requesting department. If the AS499 request cannot be approved by the Office of Accounting Services, the form will be returned to the requesting department with a memo attached explaining why the request was not approved.

B. Catered Events

Below is a summary of the procurement guidelines that must be followed for catered events. The purchasing dollar threshold for competitive pricing requires specific time lines for processing as referenced on the Purchasing website.
