

Title/Topic: Illegal/Abusive Alcohol/Other Drug Use by Students

Number: 75.03

Functional Classification: Student Services

Monitoring Unit: Office of Student Life & Enrollment

Initially Issued: October 1, 1990

Last Revised: April 1, 2016

Last Reviewed: April 1, 2016

ILLEGAL OR ABUSIVE USE OF ALCOHOL OR OTHER DRUGS BY STUDENTS

PURPOSE

Louisiana State University is committed to maintaining an environment which supports its educational mission. The illegal or abusive use of alcohol or other drugs by students interferes with the accomplishment of this mission. Louisiana State law prohibits the consumption, possession, distribution, possession with intent to distribute or manufacture of drugs described as controlled dangerous substances in the Louisiana Revised Statutes. Other Louisiana and East Baton Rouge Parish statutes define the illegal possession, consumption, and distribution of alcohol.

DEFINITIONS

Student: For the purpose of this Policy Statement, “student” is defined as any person taking one or more classes for any kind of academic credit except for continuing education units, regardless of the length of the student’s program of study.

POLICY AND PROCEDURES

I. CONDUCT PROHIBITED BY THE UNIVERSITY

Students of Louisiana State University are responsible for knowing and abiding by the provisions of University policies, local ordinances, Louisiana law and federal law that make it a crime to possess, consume, possess with intent to distribute, dispense, or manufacture drugs including alcohol, except as provided for by law. These legal regulations are summarized in the Exhibits. Any student who violates local, state or federal laws, either on property owned or controlled by the University, or at such other locations in the community which substantially affect the University’s interest as an academic institution, will be subject to disciplinary action under the *LSU Code of Student Conduct*. (See www.lsu.edu/dos)

II. PREVENTION AND INTERVENTION

Alcohol Policy Training: All recognized student organizations wishing to hold social events at which alcohol may be served must have at least three current

executive officers and the University advisor of record attend an alcohol policy training workshop annually. Additionally, in any semester in which the organization wishes to hold a social event with alcohol, at least three current executive officers must have attended the alcohol policy training program. The workshop will cover compliance with laws/policies, responsible social event hosting, and means of responding to alcohol/drug problems and crises. Workshops will be coordinated and implemented on behalf of the Division of Student Life and Academic Services through the Wellness Education Department of the Student Health Center. The Office of the Dean of Students shall maintain a current list of all student organizations that have met this requirement.

Parental Notification: While the University recognizes that students are adults who must make their own decisions and assume responsibility for their actions, it also promotes partnerships between parents/guardians and students to facilitate development, learning, and a more successful university life. Therefore, in addition to disciplinary sanctions, Louisiana State University may send written notification to parents/guardians of students under age 21 who have been found to violate the University's policies on alcohol and other drugs.

Education: The University, through the Wellness Education Department of the Student Health Center, provides educational programs about substance abuse and chemical dependency to students and other campus audiences. Sources of help at the University and in the community are offered to students when needed. Other educational opportunities are provided through various academic courses in the Colleges/Schools. The Exhibits describe the effects of alcohol and other drugs, also communicated through these educational opportunities.

Counseling and Support Services: The University, through the Mental Health Service of the Student Health Center, offers confidential assessment, referral, and treatment services to students exhibiting problems with alcohol or other drugs. In those cases where students may require inpatient or outpatient treatment, the University may refer students to agencies or programs outside the University.

III. CONSEQUENCES OF UNIVERSITY POLICY VIOLATION

Code of Student Conduct: The adjudication of all student violations of any University alcohol and drug policy and the *LSU Code of Student Conduct* is administered by the Dean of Students Office or designee. Any student who is found to have violated the University alcohol and drug policies, or to possess, consume, distribute, or manufacture illegal drugs on or about the property of the University, or in other such circumstances as provided for by University policy, is subject to sanctions under the *LSU Code of Student Conduct*. Sanctions may include, but not be limited to, probation, suspension, expulsion, and mandated educational intervention. Sanctions for student organizations may include, but not be limited to, a loss of status as a student organization, a loss of privileges to

use University facilities, a loss of social privileges, and/or mandated educational intervention. Copies of the *LSU Code of Student Conduct* are available on the LSU website (See www.lsu.edu/dos.)

Residential Housing Contracts: Students who are found to have violated alcohol and drug policies as specified in the *LSU Code of Student Conduct* and the Residential Housing Contract may be reassigned or removed from campus housing.

Mandated Educational Intervention Program: The University regards student violations of alcohol policy as a serious matter, but also as an opportunity for student development and learning. As such, in addition to disciplinary sanctions, students and student organizations found to have violated a University alcohol policy must participate in a mandated educational intervention program implemented by personnel of the Wellness Education Department of the Student Health Center.

IV. REPORTING

In compliance with the Drug-Free School and Campuses Act, Public Law 101-226, at least once annually the University through the Vice President for Student Life & Enrollment will distribute in writing to each student as defined herein its policy regarding illegal acts involving alcohol or other controlled substances.

Every two years, the Executive Director/designee of the LSU Student Health Center will report to the President an assessment of the effectiveness of the institutional efforts at drug prevention, counseling, and treatment for students and will make recommendations for changes in those programs as needed. In addition, every two years the Dean of Students will report to the President all disciplinary actions taken under this policy to ensure consistent enforcement of sanctions.

EXHIBITS

In Compliance with the Drug-Free School and Campuses Act, Public Law 101-226

EXHIBIT I: EFFECTS OF ALCOHOL

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including peer, spouse, and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses

cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucination, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. Research also indicates that children of alcoholic parents are at greater risk than other children of becoming alcoholics.

In addition to the primary effects of alcohol upon the individual consumer, other people and the community at large can suffer various secondary effects resulting from an individual's consumption of alcohol. These secondary harms include, among others, traffic crashes and fatalities, personal injury and death due to other alcohol-related causes, property damage and vandalism, legal costs, social and economic costs, and damage to the image of the community and institutions.

EXHIBIT II: EFFECTS OF OTHER DRUGS

Controlled Substances - Uses & Effects

DRUGS CSA SCHEDULES N A R C O T I C S	TRADE OR OTHER NAMES	MEDICAL USES	DEPENDENCE		TOLERANCE	DURATION (Hours)	USUAL METHODS OF ADMINISTRATION	POSSIBLE EFFECTS	EFFECTS OF OVERDOSE	WITHDRAWAL SYNDROME

DEPRESSANTS										
Gamma Hydroxybutyrate*	I GBH, G Liquid X, Liquid E, GBH, Gamma-GHB	None	Low	Low	Yes	2 to 4	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Ketamine Hydrochloride*	NA K Ket, Ketamine, Special K, Vitamin K, Kolasal, Ketalar	Veterinary Anesthetic	Unknown	Unknown	Yes	2 to 4	Oral, injected, Sniffed	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Chloral Hydrate	IV Nocite	Hypnotic	Moderate	Moderate	Yes	5 to 8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Barbiturates	III III IV Amytal, Barbitol, Fenobarbital, Lomaxol, Nembutal, Secobarbital, Phenobarbital	Anesthetic, anticonvulsant, sedative, hypnotic	High-Mod	High-Mod	Yes	1 to 16	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Benzodiazepines	IV Alivan, Dalmane, Diazepam, Librium, Xanax, Serax, Valium, Tranxene, Vershien, Valprol, Valprol, Parliam, Restoran, Rolypro**	Anxiolytic, anticonvulsant, sedative, hypnotic	Low	Low	Yes	4 to 8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Methaqualone	I Quaalude	Sedative, hypnotic	High	High	Yes	4 to 8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Glutethimide	III Doriden	Sedative, hypnotic	High	Moderate	Yes	4 to 8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Other Depressants	III IV Equanil, Miltivan, Melitor, Plecetyl, Valmid	Antianxiety, sedative, hypnotic	Moderate	Moderate	Yes	4 to 8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
STIMULANTS										
Cocaine**	II Coke, Fina, Snow, Crack	Local anesthetic	Possible	High	Yes	1 to 2	Sniffed, smoked, injected	Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
Amphetamines	II Biphentamine, Desobex, Dexerom, Dexamine, Obexol	Attention deficit disorders, narcolepsy, weight control	Possible	High	Yes	2 to 4	Oral, injected	Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
Phenmetrazine	II Preludin	Weight Control	Possible	High	Yes	2 to 4	Oral, injected	Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
Methylphenidate	II Ritalin	Attention deficit disorders, narcolepsy	Possible	Moderate	Yes	2 to 4	Oral, injected	Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
Other Stimulants	III IV Alproex, Oxyel, Dextro, Isomrin, Merfelin, Pagine, Savonar, Terbutalin, Upral, Pabro-Z	Weight Control	Possible	High	Yes	2 to 4	Oral, injected	Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
HALLUCINOGENS										
LSD	I Acid, Microdot	None	None	Unknown	Yes	8 to 12	Oral	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
Mescaline and Peyote	I Mesc, Bilora, Cactus	None	None	Unknown	Yes	8 to 12	Oral	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
Amphetamine Variants	I 2,5-DMA, PMA, STP, MDA, MDMA, THA, DCMI, DOB, Ecstasy*	None	Unknown	Unknown	Yes	Variable	Oral, injected	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
Phencyclidine	II PCP, Angel Dust, Hog	None	Unknown	High	Yes	Days	Smoked, oral, injected, oral, injected	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
Phencyclidine Analogues	I PCP, POP, TCP	None	Unknown	High	Yes	Days	Smoked, oral, injected, oral, injected	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
Other Hallucinogens	I Budobate, Iogobate, DMK, DET, Phencyclidine, Phycyon	None	None	Unknown	Possible	Variable	Smoked, oral, injected	Illusions and hallucinations, poor perception of time and distance	Longer, more intense "trip" episodes, psychosis, possible death	Withdrawal syndrome not reported
C A N N A B I S										
Marijuana	I Pot, Apocaino Gold, Green, Heroin, Shamilla, Thai Silk	None	Unknown	Moderate	Yes	2 to 4	Smoked, oral	Euphoria, relaxed inhibitions, increased appetite, disoriented behavior	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity, and decreased appetite occasionally reported
Tetrahydrocannabinol	II THC, Maribud	Cancer chemotherapy, antiemetic	Unknown	Moderate	Yes	2 to 4	Smoked, oral	Euphoria, relaxed inhibitions, increased appetite, disoriented behavior	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity, and decreased appetite occasionally reported
Hashish	I Hash	None	Unknown	Moderate	Yes	2 to 4	Smoked, oral	Euphoria, relaxed inhibitions, increased appetite, disoriented behavior	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity, and decreased appetite occasionally reported
Hashish Oil	I Hash Oil	None	Unknown	Moderate	Yes	2 to 4	Smoked, oral	Euphoria, relaxed inhibitions, increased appetite, disoriented behavior	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity, and decreased appetite occasionally reported

EXHIBIT III: LOUISIANA AND EAST BATON ROUGE PARISH CRIMINAL PENALTIES

Controlled Dangerous Substances

It is unlawful in Louisiana to produce, manufacture, distribute, dispense or possess with intent to produce, manufacture, distribute, or dispense a controlled dangerous substance classified in Schedules I through V unless such substance was obtained directly or pursuant to a valid prescription or order from a licensed physician or veterinarian or as a provider in R.S. 40:978, while acting in the course of his or her professional practice, or except as otherwise authorized by law. Penalties for violation of laws regulating controlled dangerous substances follow:

Schedule I: Various opiates, hallucinogens, depressants, and stimulants (R.S. 40:966). The maximum penalty for production, manufacture, distribution, or possession with intent to produce, manufacture, distribute or dispense Schedule I narcotic drugs, is life imprisonment at hard labor without benefit of probation or suspension of sentence, and a fine of up to \$50,000. The maximum penalty for the possession of any Schedule I drug, excluding marijuana or its chemical derivatives, is imprisonment at hard labor for 4-20 years (depending on the substance) and a fine of not more than \$5,000. The maximum penalty for a first offense possession of marijuana or its chemical derivatives shall be a fine of not more the \$500, imprisonment for not more than 6 months, or both. For quantities of 60+ pounds of marijuana, the penalty shall be imprisonment for a minimum of 10 years up to 50 years without benefit of probation or parole, and a fine of \$50,000-\$1,000,000, depending on the quantity involved.

Schedule II: Other narcotics, opiates, stimulants, and depressants (R.S. 40:967): The maximum penalty for violating Louisiana law concerning the production, manufacture, distribution, or possession with intent to produce, manufacture, distribute, or dispense, of any substances under Schedule II which is a narcotic drug, except cocaine or cocaine base, or which is amphetamine or methamphetamine, shall be imprisonment at hard labor for not less than 5 years up to 99 years, and a fine up to \$500,000. For Pentazocaine, the maximum penalty shall be imprisonment at hard labor for not less than 7-10 years without benefit of parole, probation, or suspension of sentence, and a fine up to \$15,000. For production or manufacture of cocaine or cocaine base, the penalty shall be life imprisonment and a fine up to \$500,000. For any other Schedule II drug, the penalty shall be imprisonment at hard labor for not more than 10 years, and a fine of not more than \$15,000. For possession of a Schedule II drug, the penalty shall be imprisonment from 2-60 years and a fine of \$5,000 to \$600,000, depending on the drug and quantity involved.

Schedule III and IV: Stimulants, depressants, other narcotics, and anabolic steroids (R.S. 40:968 and R.S. 40:969): The maximum penalty for violating

Louisiana law concerning the manufacture or distribution of controlled dangerous substances under Schedule III shall be a term of imprisonment at hard labor for not more than 10 years and a fine up to \$15,000. For possession of a Schedule III drug, the penalty shall be imprisonment up to 5 years and a fine up to \$5,000. For manufacture, distribution, or possession with intent to produce, manufacture, distribute or dispense of a Schedule IV drug, Flunitrazepam, shall be imprisonment at hard labor for not less than 5 to 30 years and a fine of not more than \$50,000. For any other Schedule IV drug, the penalty shall be imprisonment at hard labor for up to 10 years and a fine not more than \$15,000. For possession of a Schedule IV drug, the penalty shall be imprisonment up to 10 years and a fine up to \$5,000.

Schedule V Drugs (R.S. 40:970): For manufacture, distribution, or possession with intent to produce, manufacture, distribute or dispense a Schedule V drug, the penalty shall be imprisonment up to 5 years and a fine up to \$5,000. The maximum penalty for possession of a Schedule V Drug is up to 5 years imprisonment and a fine of up to \$5,000.

Alcoholic Beverages

Alcohol Possession or Consumption by Person Under Age 21 (RS 14:93). In Louisiana, it is illegal for persons under the age of 21 to purchase, possess, or consume an alcoholic beverage with some exceptions. In East Baton Rouge Parish (Title 13:91), it is illegal for persons under 21 years of age to consume any alcoholic beverage except for an established religious purpose; or with the knowledge, presence and consent of a parent, spouse (age 21 or older), or legal custodian; or for medical purposes. Whoever violates the city-parish ordinance shall be fined \$300 or be imprisoned for not more than 6 months, or both.

Misrepresentation of Age by a Minor (14:33): It is unlawful for any person under the age of 21 years to present or offer any evidence of age and identity which is false or fraudulent for the purpose of obtaining or purchasing alcoholic beverages. Whoever violates the provisions shall be punishable by one or more of the following: a fine of not more than \$200, community service not to exceed 30 hours, and/or suspension of the violator's true driver's license for 90 days.

Purchase of Alcohol for Persons Under Age 21 (RS 14.93): It is illegal for any person, other than a parent, spouse, or legal guardian, to purchase alcoholic beverages on behalf of a person under 21 years of age. Whoever violates this law shall be fined not more than \$500 or imprisoned for not more than 30 days, or both.

Public Drinking: In Louisiana (RS 14:93), it is unlawful for any person under age 21 to purchase or have public possession of any alcoholic beverage. Violators are fined \$100 or imprisoned for not more than 6 months. In East Baton Rouge Parish (Title 13:1018), it is illegal for any person to possess, imbibe or drink

alcoholic beverages in or on any public street, alley, sidewalk, right-of-way, park, playground, square or unenclosed public place, including the parking lot or other property adjacent to any licensed premise – unless a special event permit has been issued. Also, it is unlawful to remove an open container containing alcoholic beverages from any establishment that is licensed to sell alcohol. Whoever is guilty of this violation shall be fined not more than \$500, or imprisoned for not more than 6 months, or both.

Drinking in a Motor Vehicle: In Louisiana (RS 32:300), it is illegal for the driver of a vehicle to possess an alcoholic beverage that is open to consumption including any bottle, can, cup, or other receptacle which has been opened or the contents have been partially removed, or has a straw protruding. Fines range from \$100-\$500. In East Baton Rouge Parish (Title 13:1018), it is unlawful for any person to drink, consume or be in possession of an alcoholic beverage while operating, or while riding as a passenger in, any private motor vehicle on a public road. In East Baton Rouge Parish, it also shall be unlawful to possess a container containing alcoholic beverage which has been opened (unless placed in the trunk). On a first conviction, the offender shall be fined not less than \$125 and imprisoned for not less than 10 days nor more than 6 months.

Driving While Intoxicated (DWI) (RS 14:98, RS 32:661-669): It is illegal to operate any motor vehicle, aircraft, watercraft, vessel or other means of conveyance by the operator when they are 1) under the influence of alcohol beverages; 2) have a blood alcohol concentration of 0.08 or greater for persons over age 21, or 0.02 or greater for persons under age 21; 3) under the influence of narcotic drugs, central nervous system stimulants, hallucinogenic drugs or barbiturates to include prescription drugs. The maximum penalties upon arrest for a first DWI (Implied Consent Law) include loss of driver's license for 90 days up to 180 days. The maximum penalties for a first DWI conviction include a criminal record, 6 months in jail, \$1,000 fine plus court costs, and loss of a driver's license for 90 days. (Note: Third+ convictions are felonies.) For Underage Driving Under the Influence (DUI) the maximum penalties for persons under age 21 include a criminal record, a loss of driver's license for 6 months, a fine of \$100-\$250, and participation in substance abuse and driver improvement programs. Penalties increase with subsequent violations to include jail time and vehicle seizure.

EXHIBIT IV: Federal Penalties and Sanctions for Illegal Trafficking and Possession of a Controlled Substance:

Federal Trafficking Penalties (as of January 1, 1996)

Federal Possession Penalties

21 U.S.C. 844(a)

1st conviction: Up to 1 year imprisonment and fined at least \$1,000 but not more than \$100,000, or both.

After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years and fined at least \$2,500 but not more than \$250,000, or both.

After 2 or more prior drug convictions: At least 90 days in prison, not to exceed 3 years and fined at least \$5,000 but not more than \$250,000, or both.

Special sentencing provision for possession of crack cocaine: Mandatory at least 5 years in prison, not to exceed 20 years and fined up to \$250,000, or both, if:

(a) 1st conviction and the amount of crack possessed exceeds 5 grams.

(b) 2nd crack conviction and the amount of crack possessed exceeds 3 grams.

(c) 3rd or subsequent crack conviction and the amount of crack possessed exceeds 1 gram.

21 U.S.C. 853(a)(2) and 881(a)(7)

Forfeiture of personal and real property used to possess or to facilitate possession of a controlled substance if that offense is punishable by more than 1 year imprisonment. (See special sentencing provisions re: crack)

21 U.S.C. 881(a)(4)

Forfeiture of vehicles, boats, aircraft or any other conveyance used to transport or conceal a controlled substance.

21 U.S.C. 844a

Civil fine of up to \$10,000 (pending adoption of final regulations).

21 U.S.C. 853a

Denial of Federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, up to 1 year for first offense, up to 5 years for second and subsequent offenses.

18 U.S.C. 922(g)

Ineligible to receive or purchase a firearm.

Miscellaneous

Revocation of certain Federal licenses and benefits, e.g., pilot licenses, public housing tenancy, etc., are vested within the authorities of individual Federal agencies.

Note: The above section includes only Federal penalties and sanctions. See previous sections on State penalties and sanctions that may apply.
