**ROUTE TO CAMPUS**: Enter campus from the north on Nicholson Drive and turn left onto Aster Street. Turn into Staging Area E: Aster Street Lot after the Alaska Street intersection. Highland Road at Aster Street is closed to incoming traffic and will be exit only.

Clearly display your staging area hang tag on your rear view mirror. LSU Police and traffic patrols will direct you based on this hang tag.

Once you enter the staging area, volunteers will explain your next steps, give two (2) cars maximum an unloading zone pass, and confirm your belongings are labeled.

When an unloading space is available at your residence hall, volunteers will direct you from the staging area to your residence hall.

Before exiting the staging area, make sure to clearly display your new res hall-specific unloading zone access pass on your rear view mirror. You must have an unloading zone access pass to be granted access to the residence halls’ unloading and check in areas.

**ROUTE FROM STAGING AREA TO HALL OR APARTMENT**: Exit Staging Area E and proceed through the 4-way intersection. Continue straight to one of the Cypress Hall unloading zones located in front of and along the side of the building.

**UNLOADING & PARKING**: Pull in to the unloading zone and do not leave the car unattended. Unattended cars parked in unloading zones or blocking the flow of traffic will be towed at the owner’s expense.

After unloading, follow the one-way flow of traffic between Cypress and Cedar Halls to exit on to Aster Street. Turn right on Aster Street to park in lots surrounding the Band Hall, or turn right on to Highland Road to reenter campus and park in the interior of campus. If unloading on the side of the building, proceed up Infirmary Road to exit and park.

Student moving in as singles should let the Move-In Crew know so their car is marked as approved to stay unattended. Volunteer move-in crews will help quickly unload your belongings while the student secures room access at check in. After unloading, relocate cars to any legal parking space on campus.

When choosing a final parking space, keep in mind that if you are arriving prior to official move in (8-17-19), you must relocate your car from the parking spaces closest to the res halls to make room for the unloading zones on official move-in day. Cars parked in unloading zones or blocking the flow of traffic will be towed at the owner’s expense.

**EARLY ARRIVALS**: When choosing a final parking space, keep in mind that if you are arriving prior to official move in (8-17-19), you must relocate your car from the parking spaces closest to the res halls to make room for the unloading zones on official move-in day. Cars parked in unloading zones or blocking the flow of traffic will be towed at the owner’s expense.

When choosing a final parking space, note that cars must be moved to resident spaces by Monday morning at 7 a.m. when campus opens for business.
