

## Biol 7921 Seminar Schedule

Friday 12:30 to 1:30 at LSA 101

Date	Seminar Speaker	Seminar Title
9/17	Brandon Russell	Chloride facilitates Mn(III) formation during photo-assembly of the Photosystem II oxygen-evolving complex
9/24	Joseph Qian	Characterization of a Mitoferrin-like Transporter in Arabidopsis
10/1	Ahmed Al-Tohamy	Mapping of global transcriptional regulator MftR binding loci in Burkholderia thailandensis using ChIP-seq
10/12	Subash Ghimire	Genome-Wide Analysis of Peg3 Downstream Genes
10/15	Chelsea Hess	Transgenerational effects of parental crude oil exposure on Gulf killifish morphology and fitness
10/22	Fall Holiday	
10/26	Kieu-Nga Tran	3:00 to 5:30 (210 Choppin)
10/29	Melanie Kimball	The role of the caudal dorsomedial hippocampus in mediating neophobia behavior in house sparrows (Passer domesticus)
11/5	Keegan Stansberry	The effects of early-life stress on growth and development in altricial nestlings
11/12	No seminar	
11/19	Shova Pandey	Nopp140 isoforms function as the molecular links between Pol I machinery and pre-rRNA processing
