

Systematics, Ecology, and Evolution Seminar Series - Fall 2022

All seminars will start at 1:00pm, and will be held in Life Sciences Annex A101 unless otherwise specified. A Zoom link will be distributed with the announcement for each online seminar.

Date	Seminar	Host
8/22	Pablo Moreno , Louisiana State University "Variation in plant-pollinator and host-parasite networks along spatial and temporal gradients"	Daijiang Li
8/29	Jeremy Brown , Promotion Seminar " <i>The Landscape of Variation in Phylogenomics</i> "	
9/5	<i>Labor Day</i>	
9/12	Laura Lagomarsino , Promotion Seminar "A Clades Eye View of Plant Evolution in the Andes"	
9/19	Peter Zee , University of Mississippi "Disturbance and the evolution of mutualism"	Jiaqi Tan
9/26	Sally Koerner , University of North Carolina Greensboro "Grasslands in the Anthropocene"	Kyle Harms <i>Virtual</i>
10/3	Yifeng Cao , Entrance Seminar "Mechanism verification based on four ecological problems"	Jiaqi Tan
	Justyn Koenig , Entrance Seminar "Evolution, Biogeography and Biotic Interactions of Paleotropical Phlegmariurus"	Sarah Mathews
10/10	Flavia Montano , Louisiana State University "Friends with benefits: do mixed species flocks of birds become more inclusive in harsher environments?"	Daijiang Li
10/17	Nikhil Advani , World Wildlife Fund "On-the-ground solutions to help people and wildlife in a changing climate"	Jeremy Brown <i>Virtual</i>
10/24	Nathan Lord , Louisiana State Arthropod Museum "From structures to color: measuring objective visual signals to inform evolutionary studies in insects"	Brant Faircloth
10/31	Robert Thacker , Stony Brook University "Ecological and Evolutionary Diversification of Sponge-Microbe Interactions"	BioGrads <i>Virtual</i>
11/7	Ya Yang , University of Minnesota-Twin Cities <i>TBA</i>	BioGrads
11/14	Gideon Bradburd , University of Michigan "The geography of evolution: incorporating space into statistical population genetics"	Nicholas Mason
11/21	Liam Revell , University of Massachusetts, Boston "Looking through a tree darkly at the history of life using phylogenies."	Morgan Kelly
11/28	Maggie Vincent , Entrance Seminar "From mating to maternal care: individual-level decision-making to woo mates and nurture offspring"	Kyle Harms
	Evelin Reyes , Entrance Seminar <i>TBA</i>	Daijiang Li
