

Systematics, Ecology, and Evolution Seminar Series – Spring 2022

All seminars will start at 1:00pm. A Zoom link will be distributed with the announcement for each online seminar.

Date	Seminar	Host
1/24	Open	
1/31	Open	
2/7	Orlando Schwery , Southeastern Louisiana Univ., “adequaSSE - Exploring the Adequacy of Lineage Diversification Models for your Data, your Question, and More”, In Person	Jeremy Brown
2/14	Aaron Krivchenia , Entrance Seminar, “The Effects of Competition and Predation on Density Dependent Emigration”, In Person	Jim Cronin
2/21	Qixin He , Purdue University, “An Antigenic Diversification Threshold for Infectious Diseases: Integrating Population Genetic and Epidemiological Processes”, Online	Jiaqi Tan
2/28	Mardi Gras	
3/7	Joyce (Chery) Onyenedum , Cornell University, “The Evolution of Development of Climbing Plants”, In Person	Laura Lagomarsino
3/14	Spring Break	
3/21	Ecology Job Talk	Bret Elder
3/28	Ecology Job Talk	Bret Elder
4/4	Rachel Vannette , Univ. of California - Davis, “Floral Microbes Reveal Microbial Dispersal Limitation and Consequences for Plants, Pollinators and Microbial Communities”, In Person	Jiaqi Tan
4/11	Emilia Huerta-Sanchez , Brown University, “Leveraging Ancestral and Derived Variation to Detect and Quantify Introgression”, Online	Jeremy Brown
4/18	Austin Chipps , Entrance Seminar, “Speciation in a Shrew Radiation from Southeast Asia”, In Person & David Vander Pluym , Entrance Seminar, “The Role of Altitudinal Migration in Tropical Diversification and Speciation”, In Person	Jake Esselstyn Nick Mason
4/25	Alejandro Rico-Guevara , Univ. of Washington, “Behavioral Ecophysics of Nectar-feeding Animals”, In Person	Biograds
5/2	Stephen Potts , Dissertation Defense, “TBA”, In Person/Online	Bill Platt
5/9	Finals Week
