

MONTHLY COMMITTEE and/or LIAISON REPORT

COMMITTEE OR LIAISON: **Staff Benefits, Policies and Development**

DATE & LOCATION

OF MEETING: **April 6, 2016; 2:30pm; LSU Student Union**

ATTENDANCE: Aaron Cherry, Brent Corbitt, Nancy Arnold, Shelly Ortiz, Melonie Milton

SUMMARY:

We revisited our March meeting where we had a discussion with Jennifer Normand from HR. We have decided to team with UCGE to request a FAQ sheet from HR with the answers to all of the questions we asked. We would like senators to ask any issues they may want clarified on the PS-12. This document will save HR time by not having to answer the same questions every few years, and also allow future Staff Senators to have a starting place when addressing issues in the future. Rough draft should be finished by May Senate meeting for submission before June.

Staff have raised concerns over untimely depositing of ORP funds. Concern will be submitted to the APIC committee for review.

Concerns also raised over pharmacy benefits with CitizensRX for LSU First enrollees. It has not been a smooth transition and multiple employees have shared stories. We plan to submit this problem to the APIC Committee as well, but would ask that any Senators who are willing please share any personal problems they have had so we can provide multiple examples.

Spring event will be May 17, and is now in the hands of the executive committee. SBPD is willing to assist as needed
