WHY VISIT A UCFY COUNSELOR?

When a high school student is completing an application for admission to a college or university, they are expected to select a college major. The decision to declare a major at this stage may be one based on limited exposure to college majors and a lack of familiarity with the array of career opportunities that any college degree can offer. The first year college experience also includes a host of procedures, policies, rules, and guidelines that may be overwhelming if interpreted on one’s own.

University College’s CENTER FOR FRESHMAN YEAR (UCFY) offers students the opportunity to spend their first year at LSU confirming their choice of college major, but retaining the freedom to explore new degree programs and career opportunities. UCFY counselors are committed to focus on this first year passage, as freshmen transition into college life, in and outside of the college classroom.

Our staff of professional academic counselors are ready to assist you in understanding LSU’s college requirements — CATS, degree audits, academic deadlines, “W” grade policies, senior college admission requirements, transfer credit equivalents, grade exclusion policy, credit exams, ALEKS (Calculus), pre-requisites, co-requisites, General Education requirements, TOPS and scholarships, calculating GPA, advising holds, and more.
