4						
5						

HISTORY (Please include clinical signs, vaccinations, treatments, nutrition, duration, previous submissions for animal(s) above.)

No. of animals in this submission: _____ No. of dead animals: _____ Date of death: _____ Euthanized: Yes _____ No _____

SPECIMENS SUBMITTED *How were tissues preserved?* Fresh Fixed Frozen

Whole Body Spleen Whole Blood/EDTA Water
 Fetus/Placenta Kidney Serum Trans Tracheal Wash
 Head Heart Plasma Smear (specify): _____
 Brain Lymph Feces Other: _____
 Lung Stomach Contents Urine
 Liver Aqueous/Ocular Fluid Ear

Date Collected: _____

LAB USE ONLY

FedEx USPS Good Cold Pack
 UPS Drop Off Broken Frozen
 Courier Leaked Thawed/No Refrigerant

ACCESSIONED BY: _____
 Comments: _____
 Routed: AQU BAC CP MD NEC PAR SER TOX VIR

All samples and specimens submitted for testing become the property of the Louisiana Animal Disease Diagnostic Laboratory and WILL NOT leave the laboratory unless specific arrangements are made and approved by LADDL management. Privileged information regarding patients and clients will not be released without the owner's consent, unless required by law.

An accession fee is charged on all submissions. Only the most common tests are listed. Please visit www.laddl.org/ for a complete list of tests, pricing, and specimen submission guides.

Lab Use Only
LABEL

Alternate forms are required for Endocrinology, Biopsies, Equine Piroplasmiasis, and Equine Infectious Anemia.

AQUATICS

- Antibiotic Sensitivities
- Bacterial Identification
- Clinical Exam with Anesthesia
- Farm Certification
- Lot Inspection (10-30 fish)
- Lot Inspection (60 fish)
 - Bacteriology and Virology
- Necropsy
- PCR Identification
- Water Quality Analysis
- Other: _____

BACTERIOLOGY/MYCOLOGY

- Acid Fast Stain
- Aerobic culture only
- Aerobic culture/sensitivities
- Anaerobic culture
- Campylobacter culture
- Dermatophyte (DTM) culture
- Fungal culture
- Gram Stain
- MIC
- Mycobacterial culture
- Mycoplasma culture
- Salmonella culture
- Salmonella culture/sensitivities
- Other: _____

CLINICAL PATHOLOGY

- Bile Acids Fasting Postprandial
- Bone Marrow Evaluation
- Bone Marrow Biopsy Evaluation
- Buffy coat
- CBC
- Diff Only
- Chemistry panel
- Cytology/Fluid Analysis
- Immunocytochemistry (ICC)
- PT/PTT (Call lab before submitting)
- Urinalysis
- Urine Prot/Creat
- Other: _____

PARASITOLOGY

- Direct Smear
- Fecal flotation Sm Animal Lg Animal
- Fecal sediment. Sm Animal Lg Animal
- Heartworm screen (Occult&Knott's)
- Parasite identification
- Tritrichomonas Culture-Pouch ambient
- Other: _____

MOLECULAR DIAGNOSTICS (PCR)

- Anaplasma marginale platys
- Bartonella henselae
- BHV/IBR BLV
- BRSV BTV
- BVD CDV
- Chlamydia psittaci Chlamydiaceae
- E. canis EEE EHD
- Herpesvirus EHV-1 EHV-4 FHV
- Influenza A
- Leptospira interrogans (pathogenic serovars)
- Mycoplasma gall. synoviae bovis
- Rhodococcus equi
- Streptococcus equi equi
- Tritrichomonas foetus
 - Red top-refrigerated smegma in PBS
 - Incubated-frozen pouch/transit tube
 - Non-incubated-ambient pouch/transit tube
- WNV
- Other: _____

SEROLOGY/IMMUNOLOGY

- Anaplasma marginale phagocytophilum
- Antinuclear Antibody IFA
- Babesia canis IFA
- Blastomyces AGID
- BLV AGID BTV AGID
- Brucella abortus LA canis RSAT
- Canine Anemia/Thrombocytopenia Panel
- Canine Distemper IFA IgG IgM
- Canine Lameness Panel
- Canine Parvovirus IFA IgG IgM
- Clostridium ELISA difficile perfringens
- COOMBS Test (EDTA) K9 Fel Eq
- Cryptococcus _____
- Ehrlichia canis IFA
- Fever of Unknown Origin Panel K9 Fel
- FIP IFA
- Fungal Panel K9 Fel
- Herpes IFA EHV-1 FHV-1
- IFA Endpoint Titer: _____
- Leptospirosis MAT
- Lyme Disease IFA
- Paired Titer Testing: _____
- Rocky Mountain Spotted Fever IFA
- Salmonella Pullorum-Typhoid
- Tick Borne Disease Panel
- Toxoplasmosis IgG IgM
- WNV/EEE Equine ELISA
- Other: _____

TOXICOLOGY

- Acetylcholinesterase
- Anticoagulants
- Bromide
- Carbamates Cantharidin
- Chlorinated Hydrocarbon
- Convulsant screen
- Ethylene glycol
- Fly Test (Insecticide)
- Metals
 - Arsenic Lead
 - Cadmium Mercury
 - Chromium Molybdenum
 - Cobalt Selenium
 - Copper Thallium
 - Iron Zinc
- Nitrate, Nitrite
- Phenobarbital
- Organophosphates
- Strychnine
- Other: _____

VIROLOGY

- BTV Culture (export)
- Culture
 - BVD Eq encephalitis
 - CHV Flu
 - EHV-1 FHV/Calici
 - EAV Culture (export) PrV
- Enteric Screen EM
- FA
 - BVD
 - CDV
 - FIP
 - Respiratory Viruses
- FeLV IFA
- Rabies
- Rotavirus A ELISA
- Other: _____

NECROPSY

- Alligator
- Avian/Poultry
- Companion Animal
- Equine
- Farm Animal
- Private Cremation
- Representative Cremation
- General Cremation
- Other: _____
- Weight: _____
